*“Globalization process also implies a few disadvantages, besides its many advantages”.*

- a) TRUE
- b) FALSE

11) Read the text and choose the right answer to the question.

At the beginning of the twenty first century, the economic crisis spread almost all over the world. In March 2075, the world oil resources were over and people changed gasoline cars to electric means of transportation. They were cheaper but much slower. Trucks could not move faster than fifty kilometers per hour which made the process of logistics last about twice longer than usual.

*This text's main idea is...*

- a) The advantages of using electric means of transportation
- b) The economic crisis at the beginning of the 21th century
- c) The disadvantages of using trucks for the process of logistics

12) Read the text and choose the right answer to the question.

In June 2076, the United Nations called the World Energy Summit. In the opening, the delegate of the host country said: "The world is facing a serious problem today, a problem which requires us to be united more than ever... We face a crucial dilemma: we either give more political power to the United Nations, or we establish a new global government."

*The delegate talks about a serious problem that the world is facing. This problem refers to...*

- a) The dilemma of having to decide between the United Nations or a new global government
- b) The economic crisis because of the world oil resources ending
- c) The world's disunity to face the crisis

13) Read the text and choose the right answer to the question.

A few days later, the Canadian delegate spoke. "The region of the Middle East is no longer the energetic center of the world." She added: "Which energy is more pure than solar energy? The huge desert of Sahara, which has been a "large wasteland" till now, can become an important economic region and a global government could control this area."

*Regarding the desert of Sahara, the Canadian delegate thinks that...*

- a) It's a large wasteland that cannot be used for economic purposes
- b) It doesn't provide enough solar energy to picture it as an economic region
- c) It can become an important economic region to be controlled

14) Read the text and choose the right answer to the question.

"I suggest", she continued, "that this global government should have neither more than one thousand nor less than five hundred members; maybe one hundred per each continent. That would make six hundred members. It's a pretty big number, but they will rule the whole world."

*The Canadian delegate believes that a six-hundred-members global government...*

- a) is a good number of people ruling the whole world
- b) is not enough; it should have many more members
- c) is a number that doesn't convince her in terms of world control

15) Read the text and choose the right answer to the question.

The next day, it was the President of Egypt's turn.

"Today, all the countries of the desert are speaking one voice. You want to build the power plant on the territory of our Sahara and take away our land. The area which you find a wasteland, is however our home..." he spoke for a long time before he made his point.

"We must have additional seats in the global government. They will be the guardians of the territory, and will ensure appropriate exploitation of the desert!"

*By the President of Egypt's words, we can infer that...*

- a) He is concerned and emotional about the Sahara territory
- b) He doesn't really care about what may happen to the Sahara land
- c) He is convinced that the Sahara land is the best option as economic region
