

### ENGLISH GUIDE N° 13 – MY REFLECTIONS ON GLOBAL ISSUES

Name: \_\_\_\_\_ Grade: 11<sup>th</sup> A – B - C

Date: \_\_\_\_\_

#### Expected Learning

OA3

Utilizar su conocimiento del inglés en la comprensión y producción de textos orales y escritos breves y claros, con el fin de construir una postura personal crítica en contextos relacionados con sus intereses e inquietudes.

#### Instructions

1. Read carefully and complete each section according to what it is required.
2. When you finish the guide, at the end of it, you have to answer a **SELF-EVALUATION** which will help you to see your performance during the development of this guide.
3. If you want to see if your answers are correct, you can check them in the **ANSWER KEY** which will be uploaded in the next guide.
4. Remember that this guide helps you to continue with the development of your knowledge and you can continue practicing your English skills at home.
5. If you can't print this guide, you can write the answers on your copybook.
6. This guide is supposed to be done in **45 minutes**.
7. If you can print these guides, remember to keep them in a folder.

Hello!!

It was good to see you last week! 😊

This time, it's time to see if you understood the content! You have to answer a short activity in **THATQUIZ** and for the class, you have a text related to a Global Issue which you have to identify **REPORTED SPEECH SENTENCES!**

The answers from Guide N° 12 you can find it attached on the webpage of the school.

And the link of the class is here → <https://youtu.be/WeUd6GnctTE> (1<sup>st</sup> Part)

<https://youtu.be/E-0bP5P-6gc> (2<sup>nd</sup> Part)

#### TRAINING ACTIVITY N° 3 – THATQUIZ (ACTIVIDAD FORMATIVA)

- ✓ This time you will have to work with a short activity from THATQUIZ in which you have to check the previous guides given by the teacher, in this case from **GUIDES 10 to 12**.
- ✓ Recuerda que estas actividades son para conocer tu aprendizaje durante estas semanas de trabajo y que son **SIN NOTA**.
- ✓ **RESPONDE TRANQUILO O TRANQUILA Y NO DUDES DE TUS CONOCIMIENTOS.**
- ✓ Debes ingresar a esta página: <http://www.thatquiz.org/es/> y poner el **CÓDIGO DE EXÁMEN SEGÚN TU CURSO**.
- ✓ Esta actividad está disponible desde:
  - **LUNES 29 DE JUNIO (DESDE LAS 08.00 AM) HASTA EL DÍA DOMINGO 05 DE JULIO (HASTA 23.59 HRS).**
- ✓ Podrás ver tu resultado al final de la actividad y las respuestas estarán en la próxima guía (GUIDE N°14).
- ✓ Tendrás **30 minutos** para responder la actividad.
- ✓ Atención: tienes solamente **1 oportunidad** para responder esta actividad (si la cierras antes de terminar, se guardará lo que hayas alcanzado a responder, no podrás volver a hacer esta actividad)
- ✓ **IMPORTANTE: SI NO PUEDES TRABAJAR DESDE UN COMPUTADOR, ¡NO IMPORTA! PUEDES TRABAJAR PERFECTAMENTE DESDE TU CELULAR.** 😊

#### CÓDIGO DE ACTIVIDAD

III° MEDIO A	III° MEDIO B	III° MEDIO C
82L02TYF	NZPNPKKQ	8R4V18YO

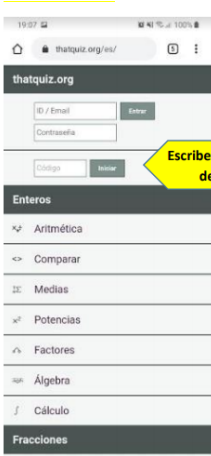

- ¿CÓMO RESPONDER DESDE TU COMPUTADOR?

Escribe aquí el código de tu curso

- ¿CÓMO RESPONDER DESDE TU CELULAR?

Excelente	
Nota	7,00
Porcentaje	100%
Cumplido	15
Sin cumplir	0
Acertado	15
Equivocado	0
Tiempo	1:00
Segundos (promedio)	4

Y finalmente tienes tus resultados! Yay!

Activity (REMEMBER THAT THIS WILL BE DONE IN CLASS)

- Read each piece of news and identify each part of it (GUIDE N°9), and then, identify the sentences that could be used to change into REPORTED SPEECH.

## Climate change turning Antarctica “green”

May 29, 2020

LONDON – Antarctica conjures images of an unbroken white wilderness but blooms of algae are giving parts of the frozen continent an increasingly green tinge. Warming temperatures due to climate change are helping the formation and spread of “green snow” and it is becoming so prolific in places that it is even visible from space, according to new research.

While the presence of algae in Antarctica was noted by long-ago expeditions, such as the one undertaken by British explorer Ernest Shackleton, its full extent was unknown.

Now, using data collected over two years by the European Space Agency’s Sentinel 2 satellite, together with on-the-ground observations, a research team from the University of Cambridge and the British Antarctic Survey have created the first map of the algae blooms on the Antarctic Peninsula coast.

“We now have a baseline of where the algal blooms are and we can see whether the blooms will start increasing as the models suggest in the future,” Matt Davey of the University of Cambridge’s Department of Plant Sciences said.

Mosses and lichens are considered the dominant photosynthetic organisms in Antarctica – but the new mapping found 1,679 separate algal blooms that are a key component in the continent’s ability to capture carbon dioxide from the atmosphere.

“The algal blooms in Antarctica are equivalent to about the amount of carbon that’s being omitted by 875,000 average UK petrol car journeys,” Davey said. “That seems a lot but in terms of the global carbon budget, it’s insignificant.

“It does take up carbon from the atmosphere but it won’t make any serious dent in the amount of carbon dioxide being put in the atmosphere at the moment.”

Green is not the only splash of color in Antarctica. Researchers are now planning similar studies on red and orange algae, although that is proving harder to map from space. – MercoPress
