Dear students,

As you can see, this is not a guide to complete, these are my words to you in our final class.

I know that this has been a difficult, problematic and weird time that we're living now. This is our last class and I never imagined that it would be like this.

We didn't have the time to see each other face to face and listen to your voices in each class how we used to do it last year with those 3 noisy hours.

Unfortunately, you and me were chosen to live a thing that we never thought it would happen to us, this pandemic changed our way to see and live our lives differently, for good or for bad it has influenced in our daily lives.

I only want to thank for being in my class, for convenience or not, you chose to be here and I appreciate that. We didn't have a lot of moments to share but I hope that you had enjoyed all the classes done because they were done with all my heart, always trying that you feel comfortable and participative in the class, although sometimes was very difficult that you participate because you were soooo embarrassed to speak and activate your cameras but I understand that.

I just have to say thank you and I hope that you have been able to learn a little about this language that has been easy for ones and for others not. Try to use this time to do the other things that you have to do, I know that as the head teacher of IV°B that you have a lot of things to do. I send you all the energy I have left, it is not much but I hope that helps you.

And don't forget that despite the distance, you're always in my mind.

With love,

Miss Camila Fuentes Soza
