

## EVALUACIÓN FORMATIVA

### CREAR PATRONES DE COLOR, FORMA, TAMAÑO Y SECUENCIAS DE NÚMEROS EN LA CLASE ONLINE

Tiempo de trabajo: 1 HORA

#### **Objetivo de Aprendizaje:**

OA 11: Reconocer, describir, crear y continuar patrones repetitivos (sonidos, figuras, ritmos...) y patrones numéricos hasta el 20, crecientes y decrecientes, usando material concreto, pictórico y simbólico, de manera manual y/o por medio de software educativo.

Para la clase online trabajaremos creando patrones de color, forma, tamaño y secuencias numéricas.

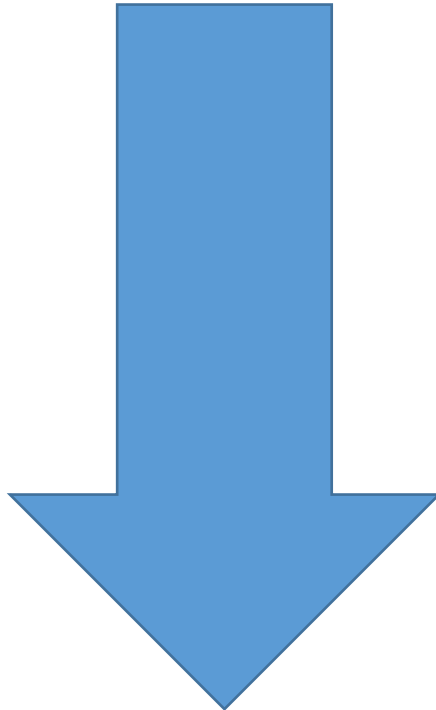

#### **MATERIALES:**

1. Figuras de cartulina de colores dadas en ficha al final del instructivo. (Como mínimo 10 de cada uno en color forma y tamaño)
  - a) 10 círculos rojos grandes, 10 círculos rojos medianos y 10 círculos rojos pequeños.
  - b) 10 círculos azules grandes, 10 círculos azules medianos y 10 círculos azules pequeños.
  - c) 10 círculos verdes grandes, 10 círculos verdes medianos y 10 círculos verdes pequeños.
  - d) 10 cuadrados rojos grandes, 10 cuadrados rojos medianos y 10 cuadrados rojos pequeños.
  - e) 10 cuadrados azules grandes, 10 cuadrados azules medianos y 10 cuadrados azules pequeños.
  - f) 10 cuadrados verdes grandes, 10 cuadrados verdes medianos y 10 cuadrados verdes pequeños.
  - g) 10 triángulos rojos grandes, 10 triángulos rojos medianos y 10 triángulos rojos pequeños.
  - h) 10 triángulos azules grandes, 10 triángulos azules medianos y 10 triángulos azules pequeños.
  - i) 10 triángulos verdes grandes, 10 triángulos verdes medianos y 10 triángulos verdes pequeños.
2. Números recortados
3. Medio pliego de cartulina de color (color es opcional, pero no puede ser rojo, verde o azul)
4. Plumón negro
5. Tijeras
6. Pegamento

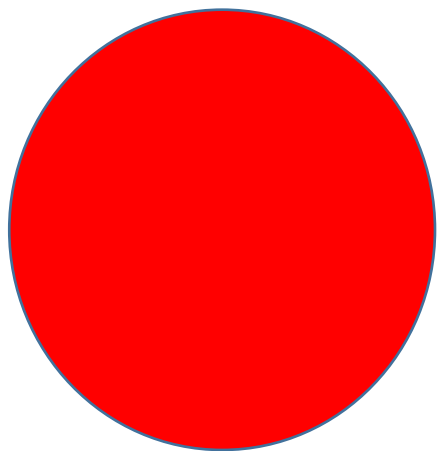

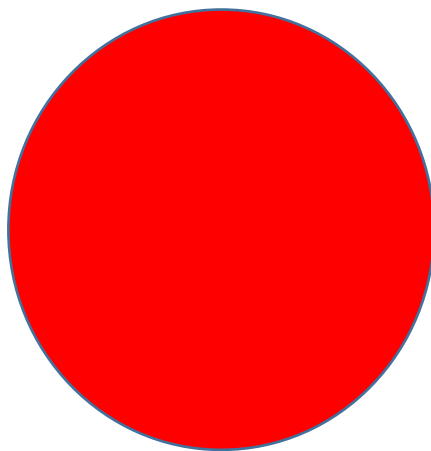

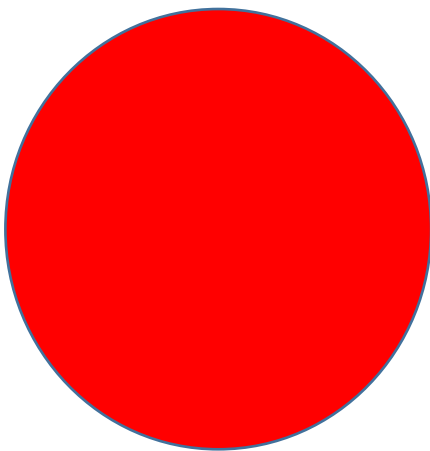

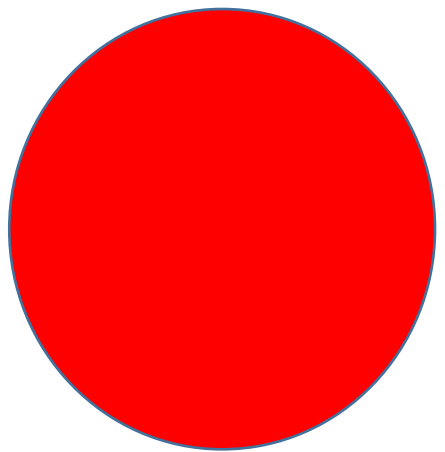

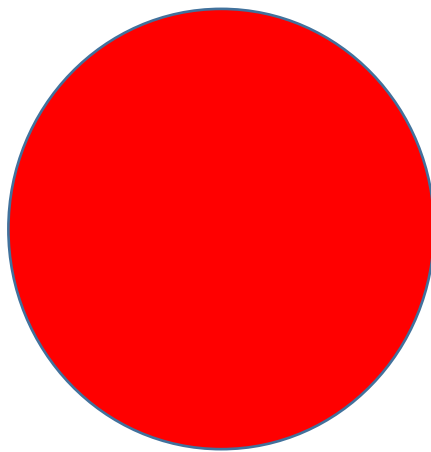

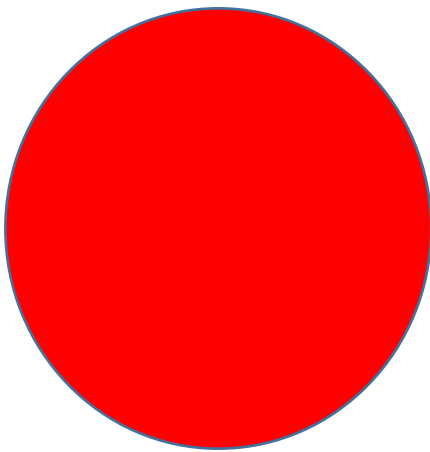

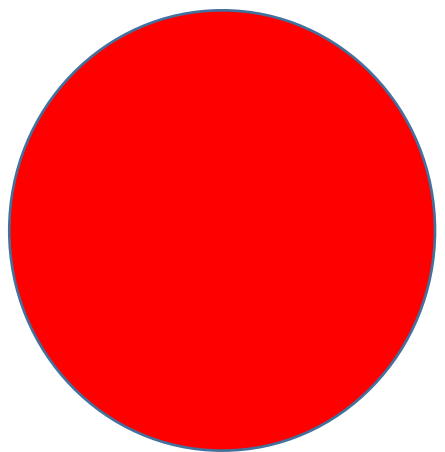

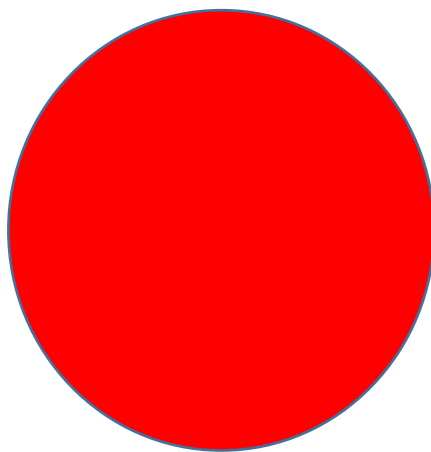

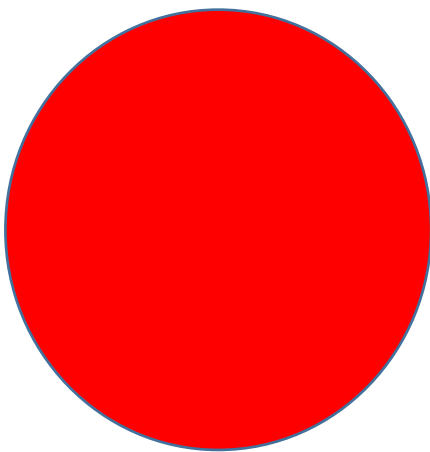

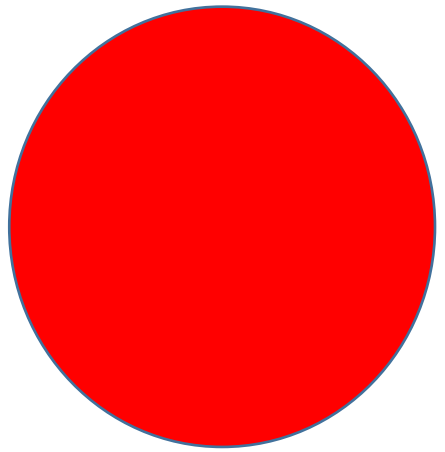

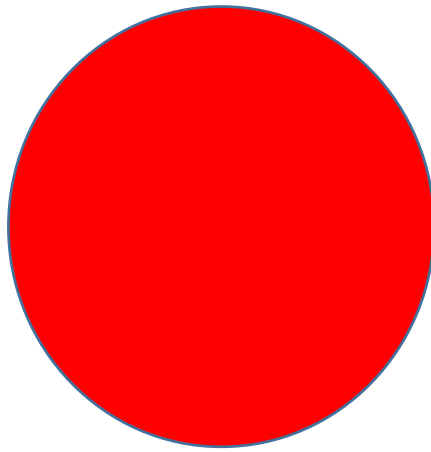

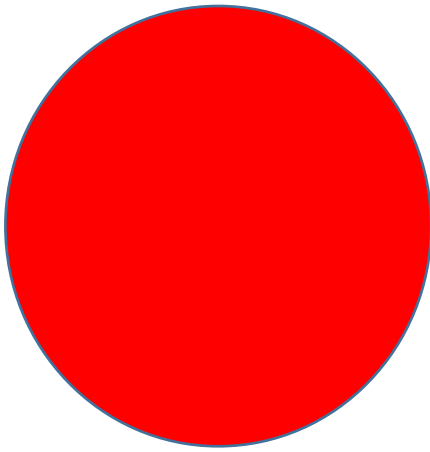

### **INSTRUCCIONES:**

1. Presentar en la clase online las imágenes de figuras y números que están insertas al final de este documento.
2. Las figuras deben estar recortadas en cartulinas de acuerdo a la cantidad y color que se indica o también las puedes imprimir a color y luego recortarlas. Debes tener todo este material el día martes 27 de Octubre para la clase de matemáticas, además de tijeras y pegamento en barra.
3. Escuchar con atención, respetado el orden y las instrucciones que se darán en clases para cada ejercicio planteado.
4. Terminar el trabajo durante la clase online.
5. Una vez que finalice la clase, deberás subir la fotografía de tu trabajo terminado y enviarla durante el mismo día a Classroom, pinchando el link de matemáticas, tarea de la semana 27 "Creando patrones".
6. Debajo de esta página se adjuntan los números y las figuras en color, forma y tamaño.

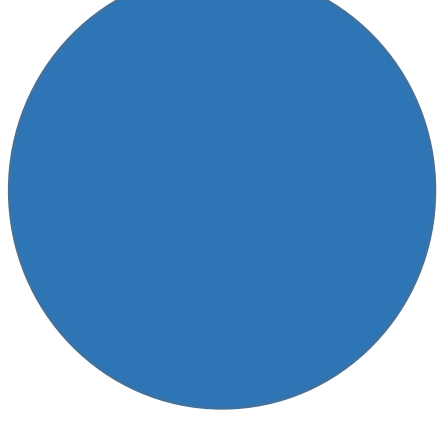

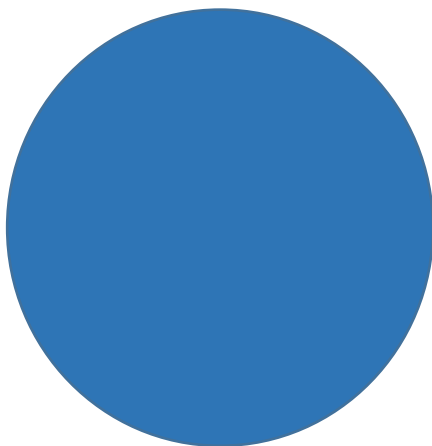

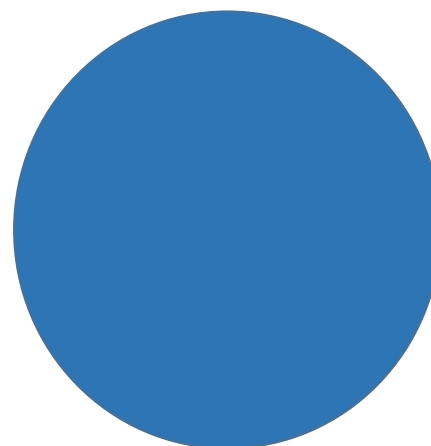

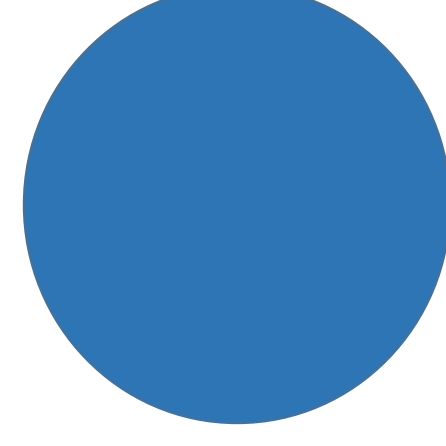

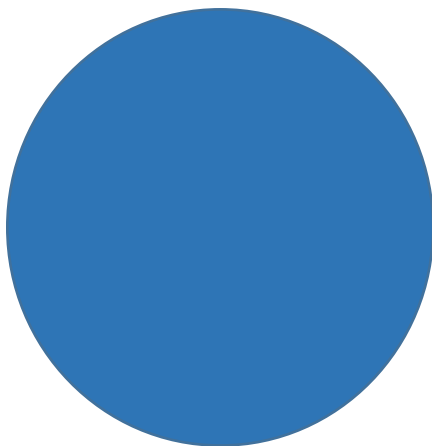

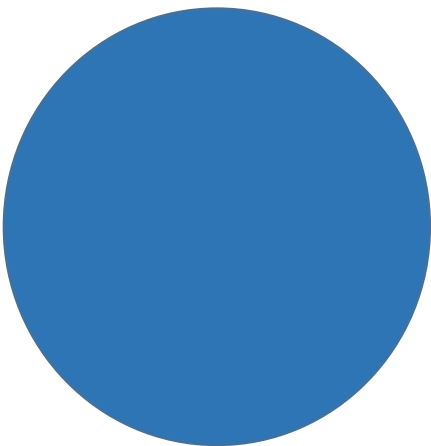

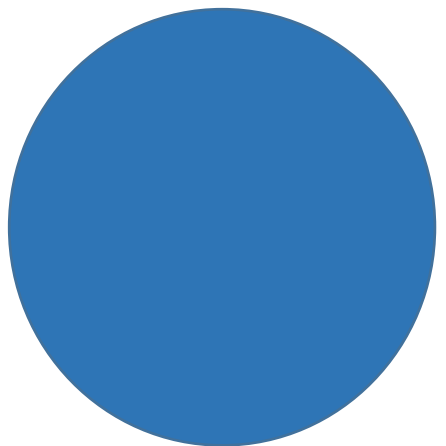

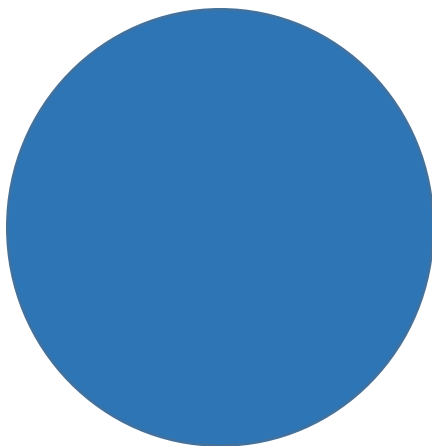

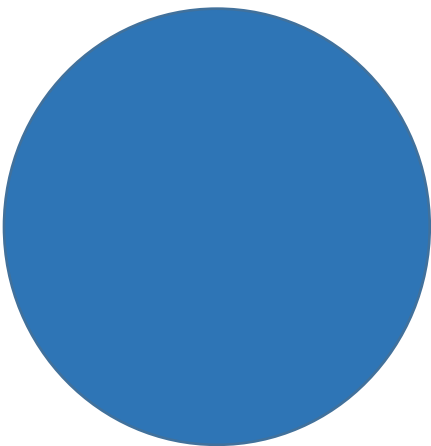

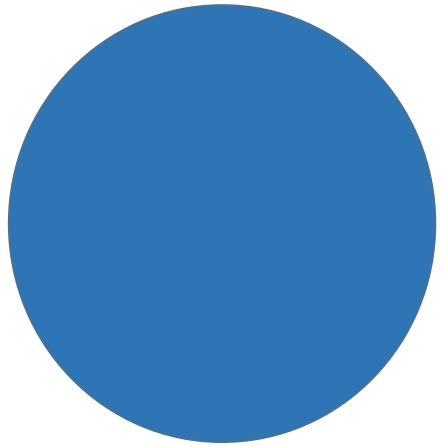

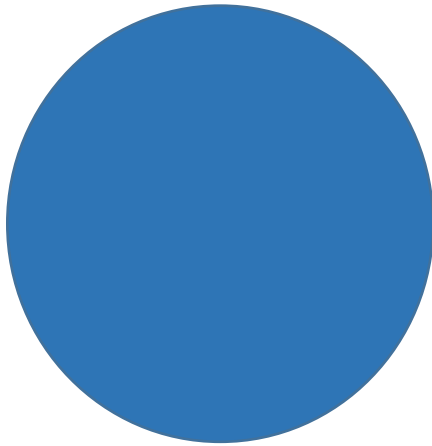

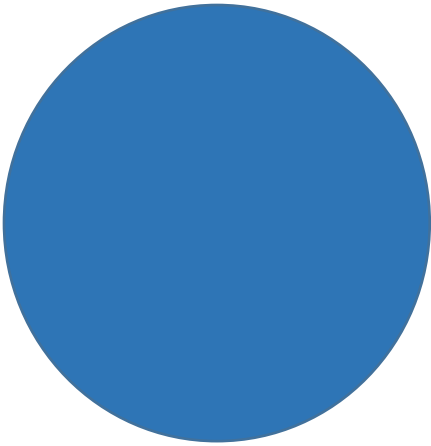

**Material recortable círculos rojos grandes**

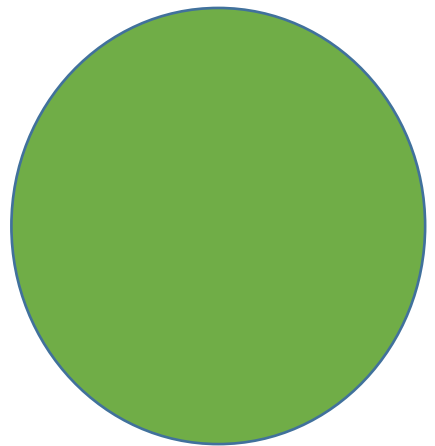

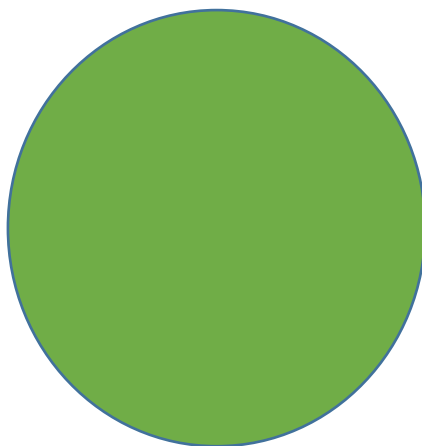

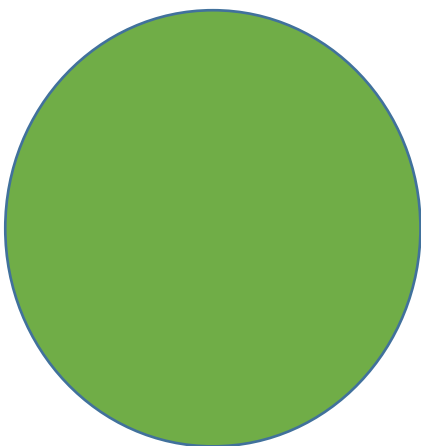

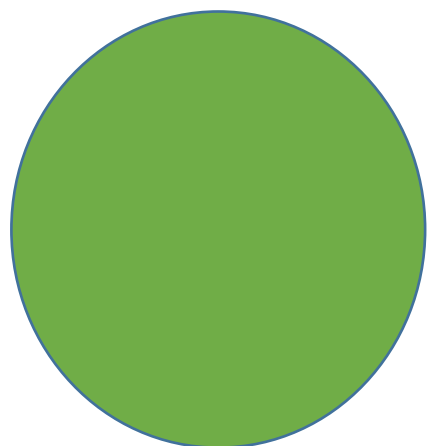

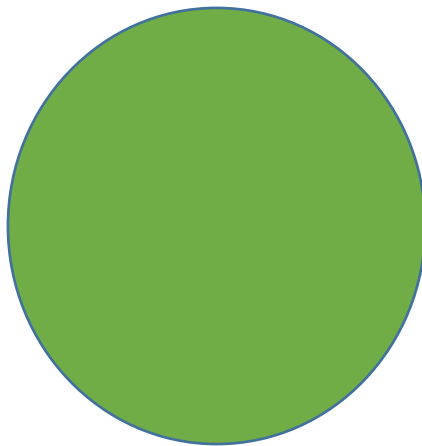

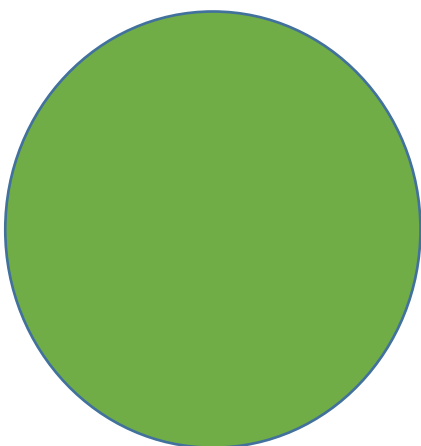

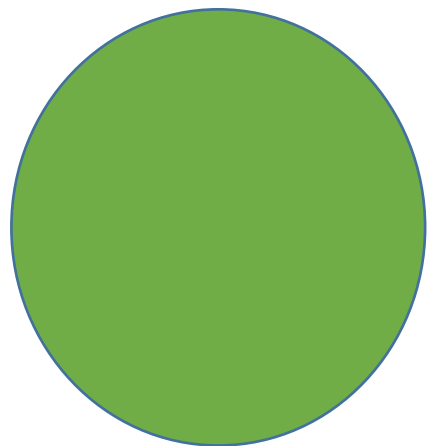

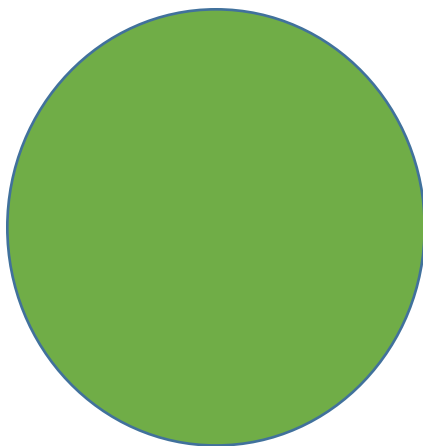

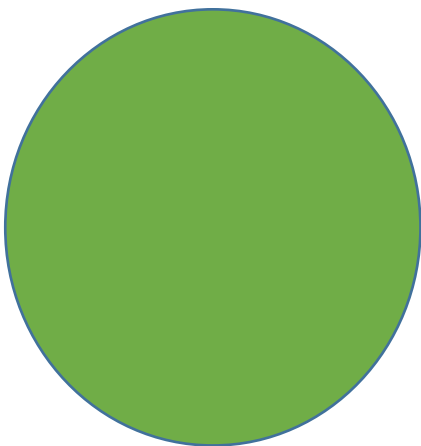

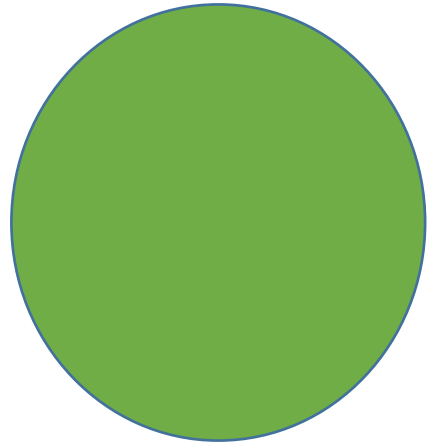

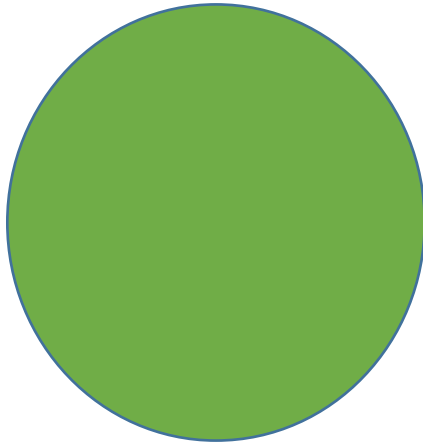

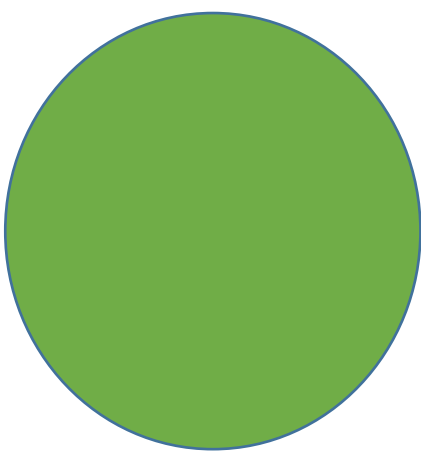

**Material recortable Círculos azules grandes**

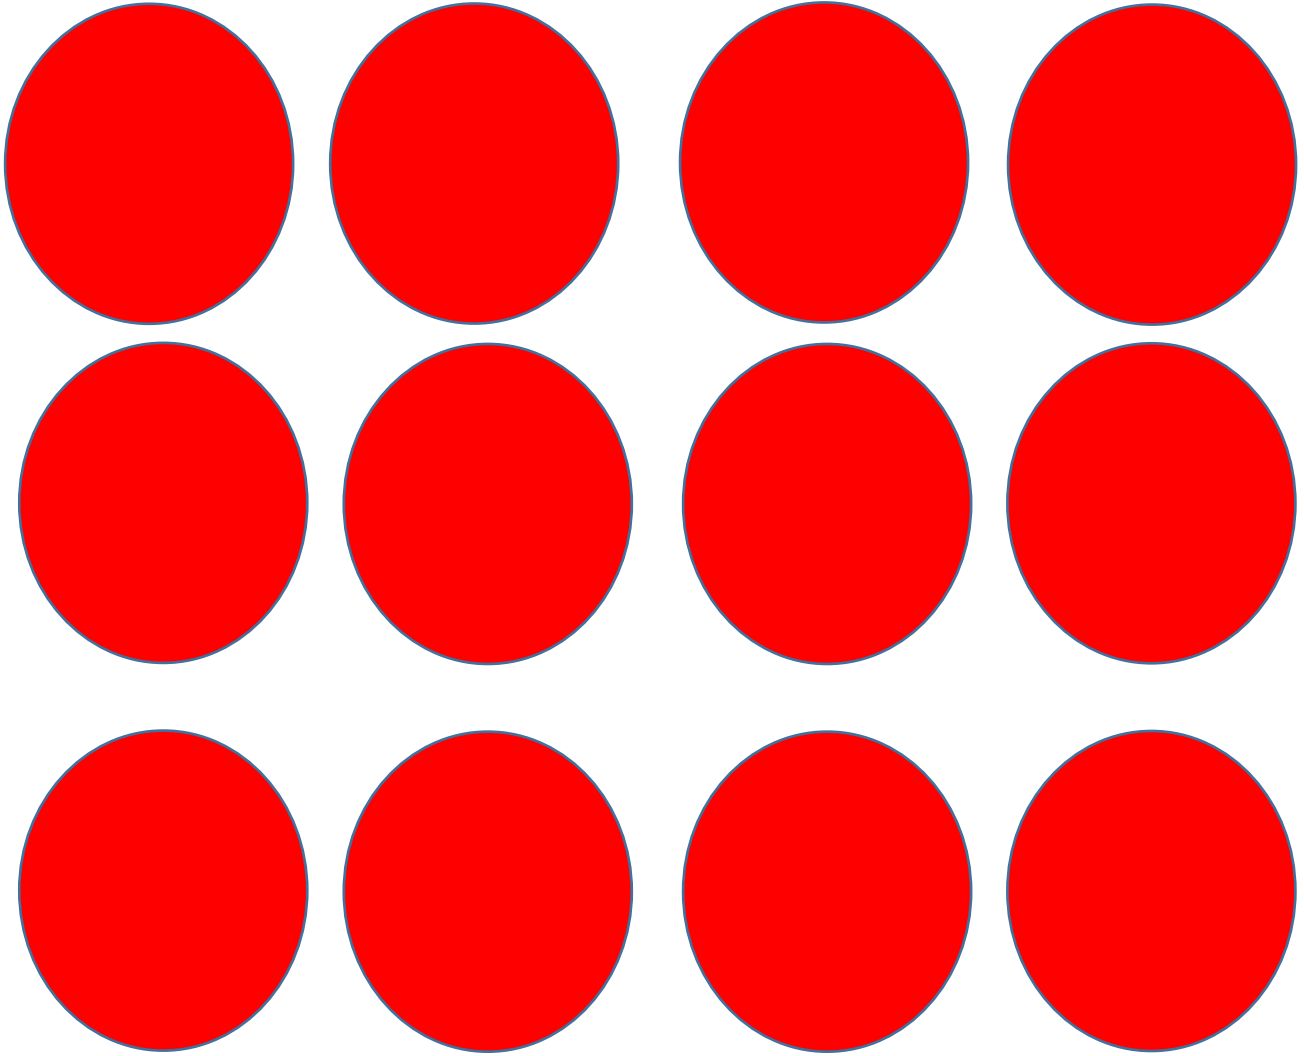

**Material recortable círculos verdes grandes**

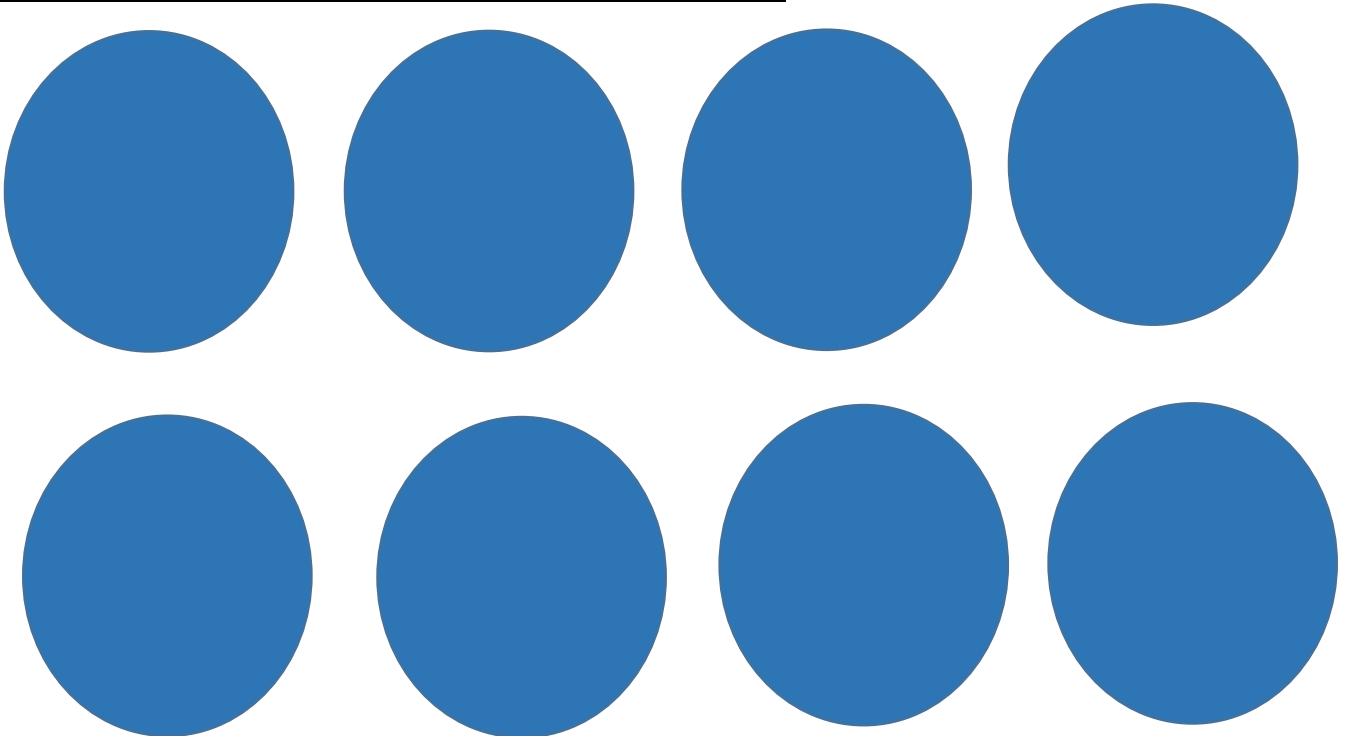

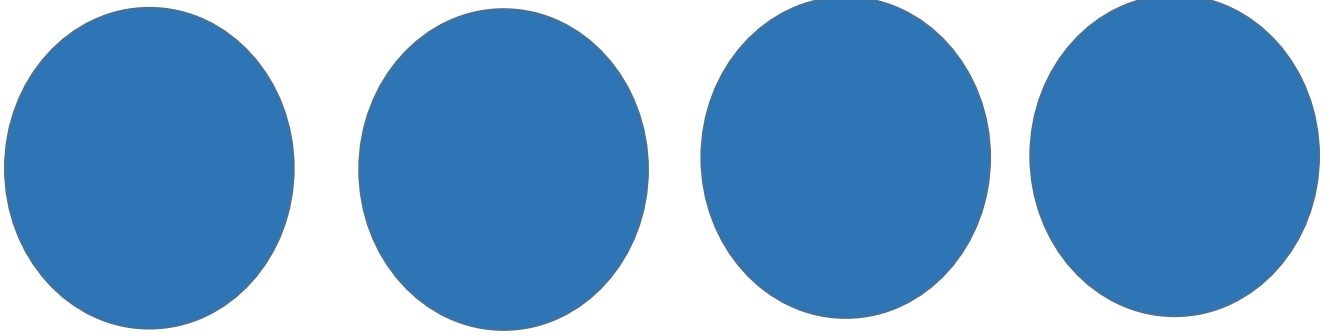

**Material recortable círculos rojos medianos**

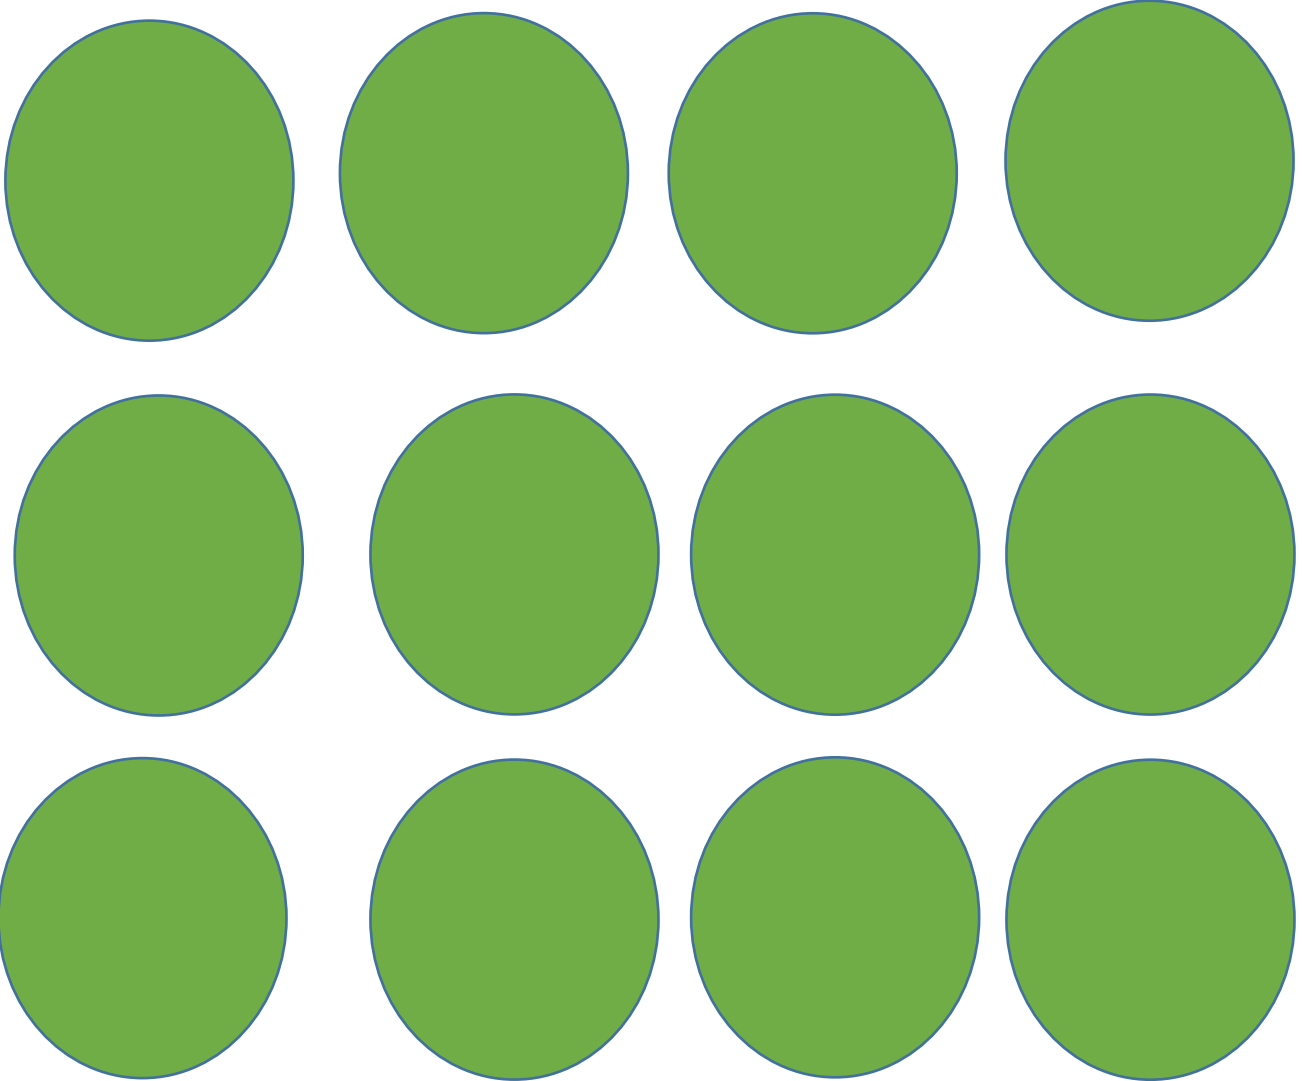

**Material recortable Círculos azules medianos**

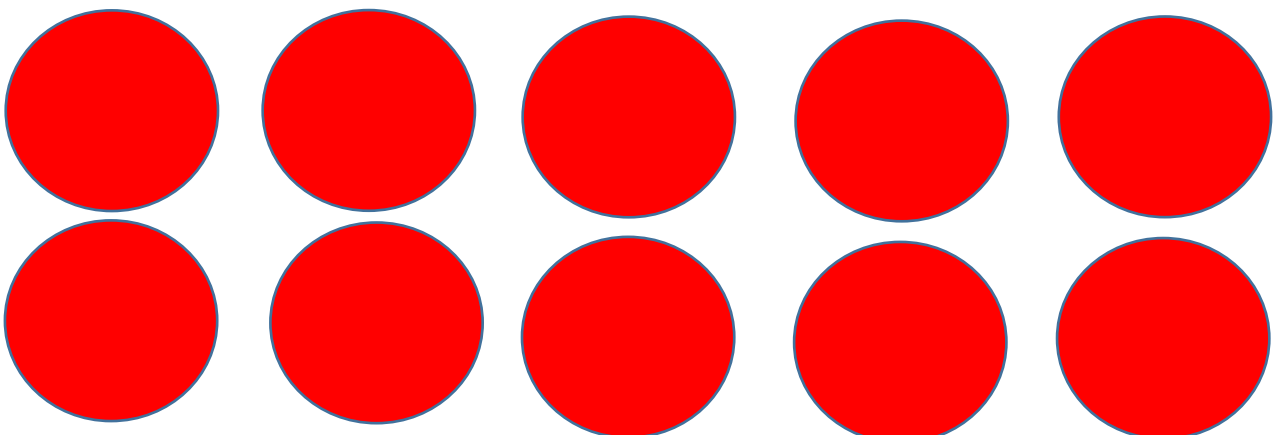

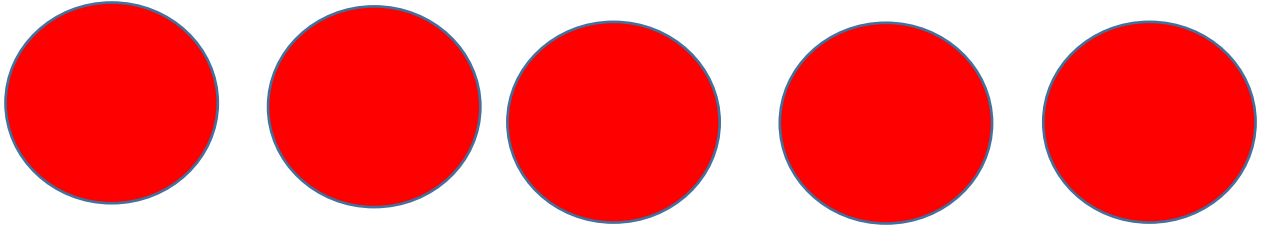

**Material recortable círculos verdes medianos**

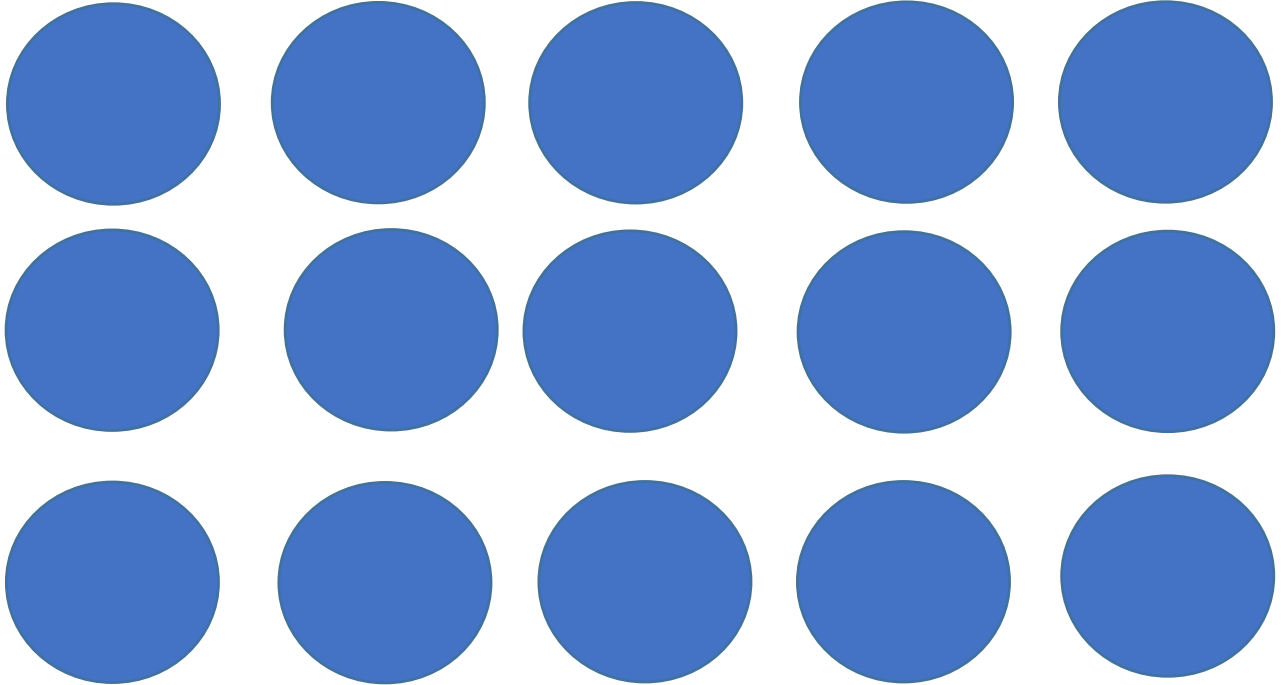

**Círculos rojos pequeños**

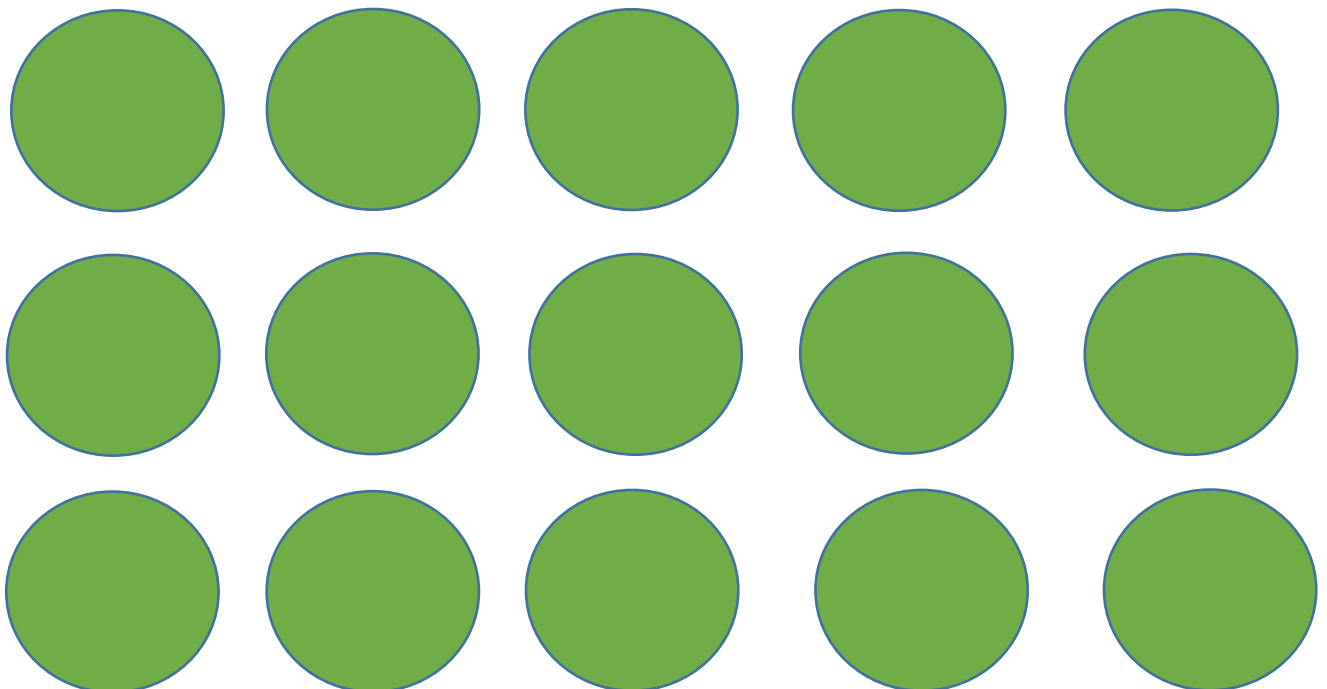

**Círculos azules pequeños**

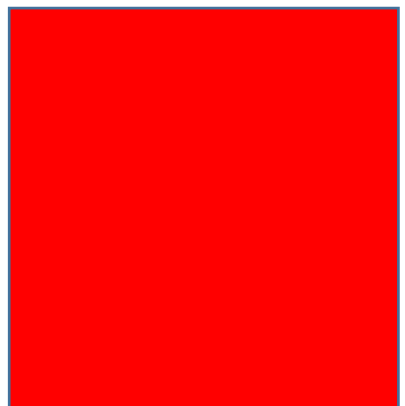

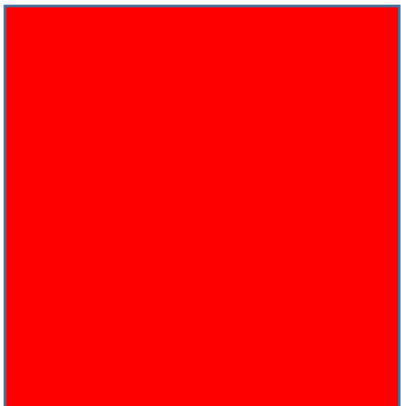

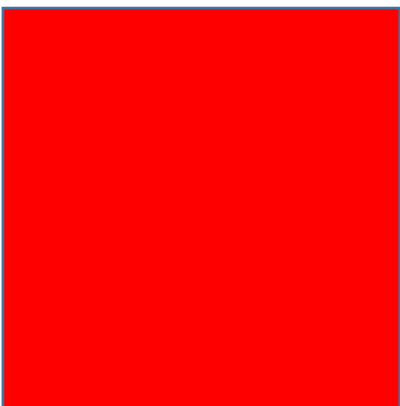

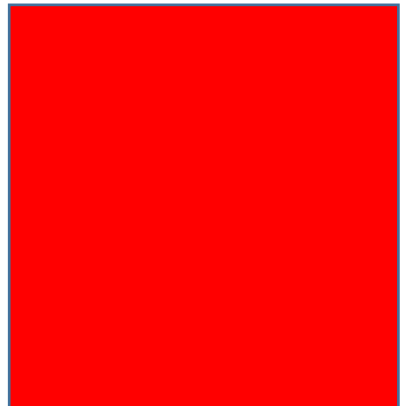

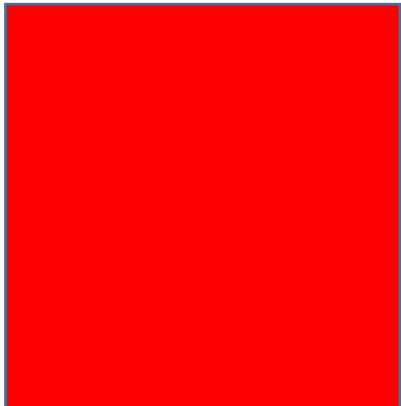

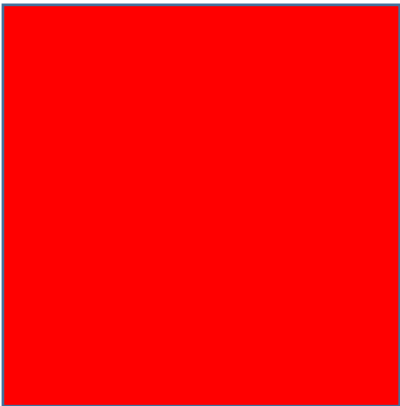

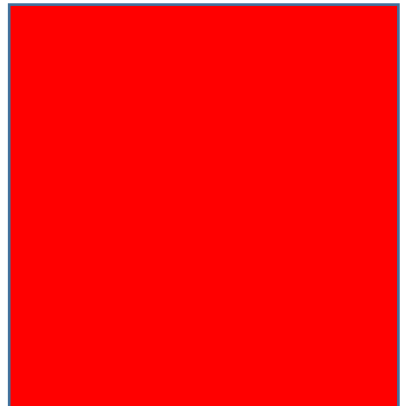

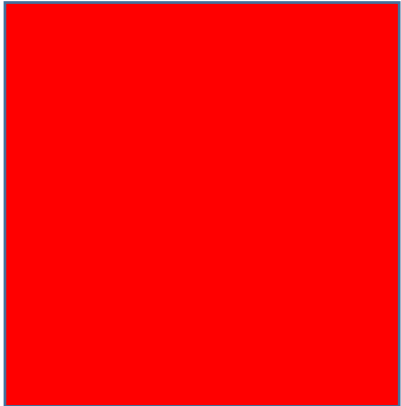

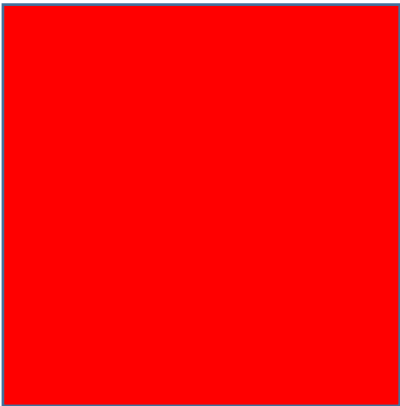

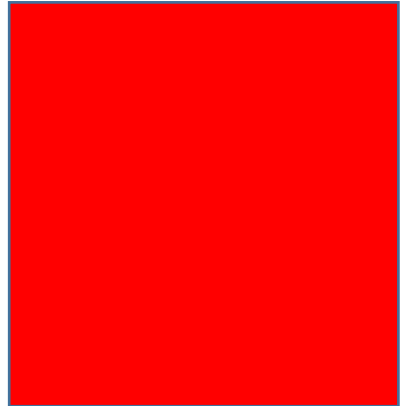

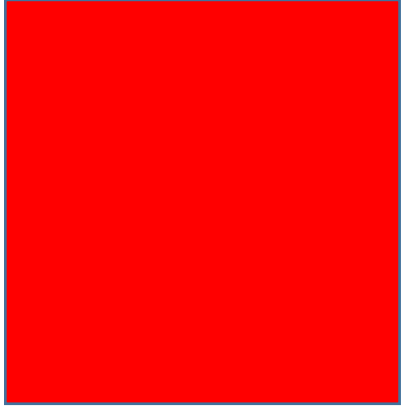

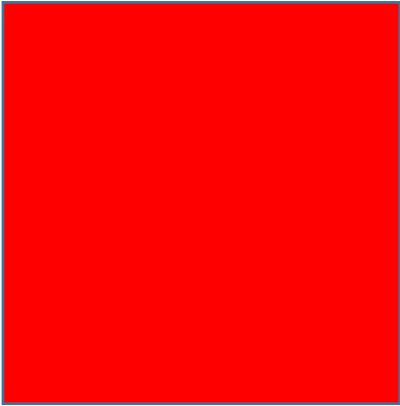

**Círculos verdes pequeños:**

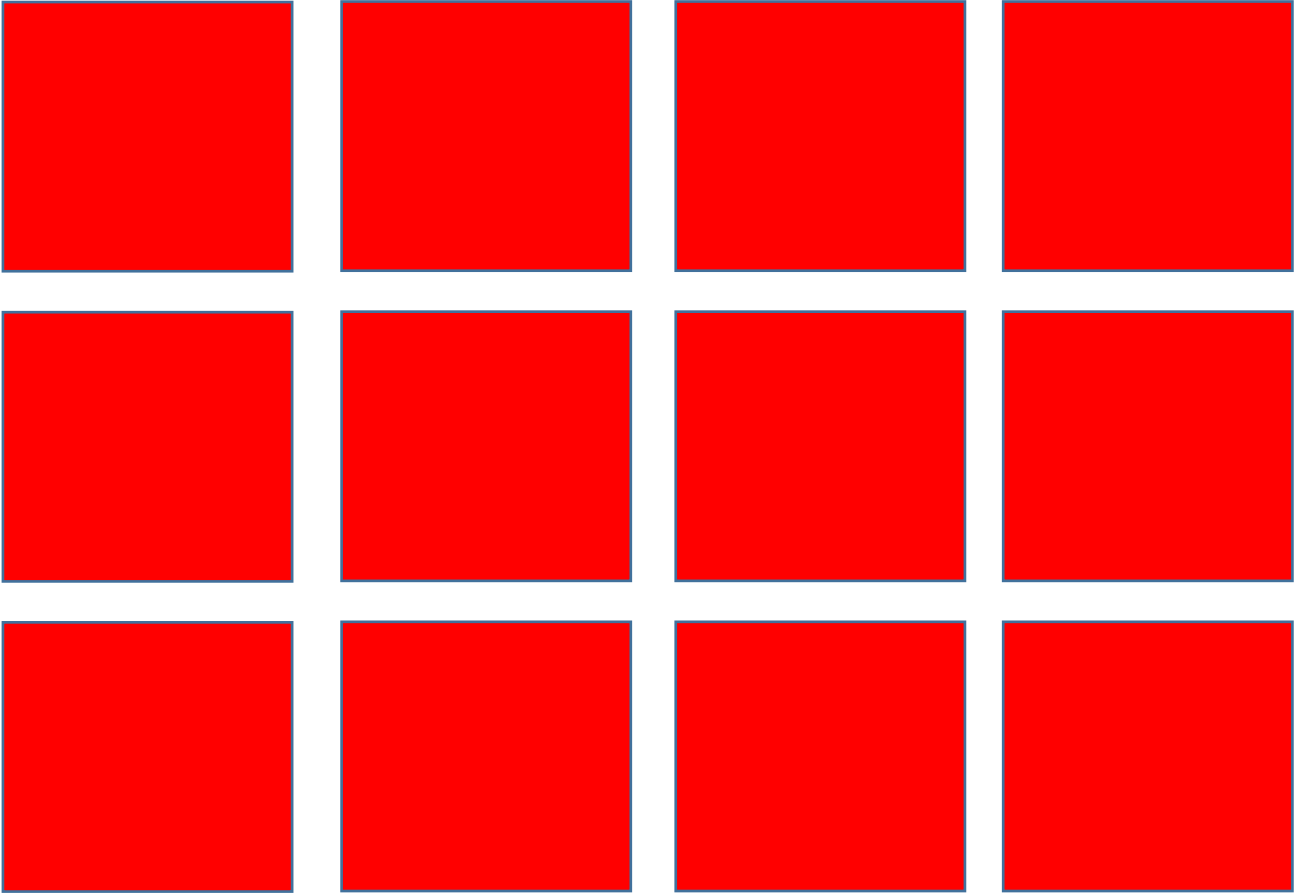

## Cuadrados grandes rojos

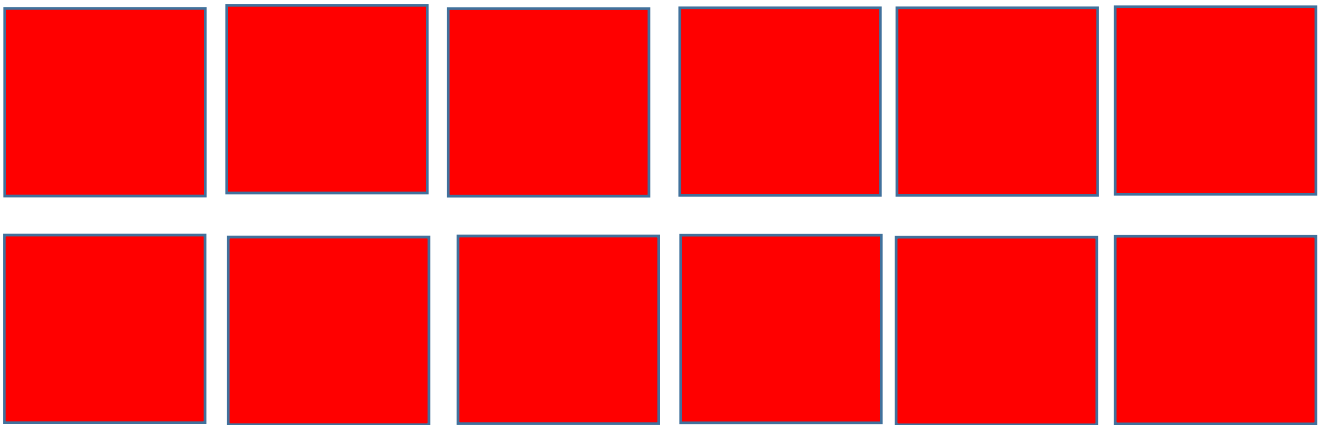

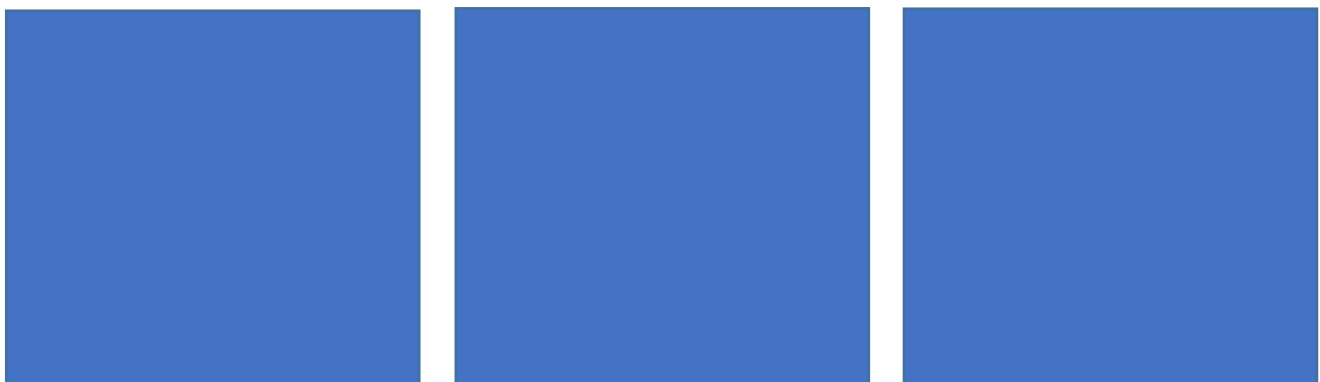

**Cuadrados medianos rojos**

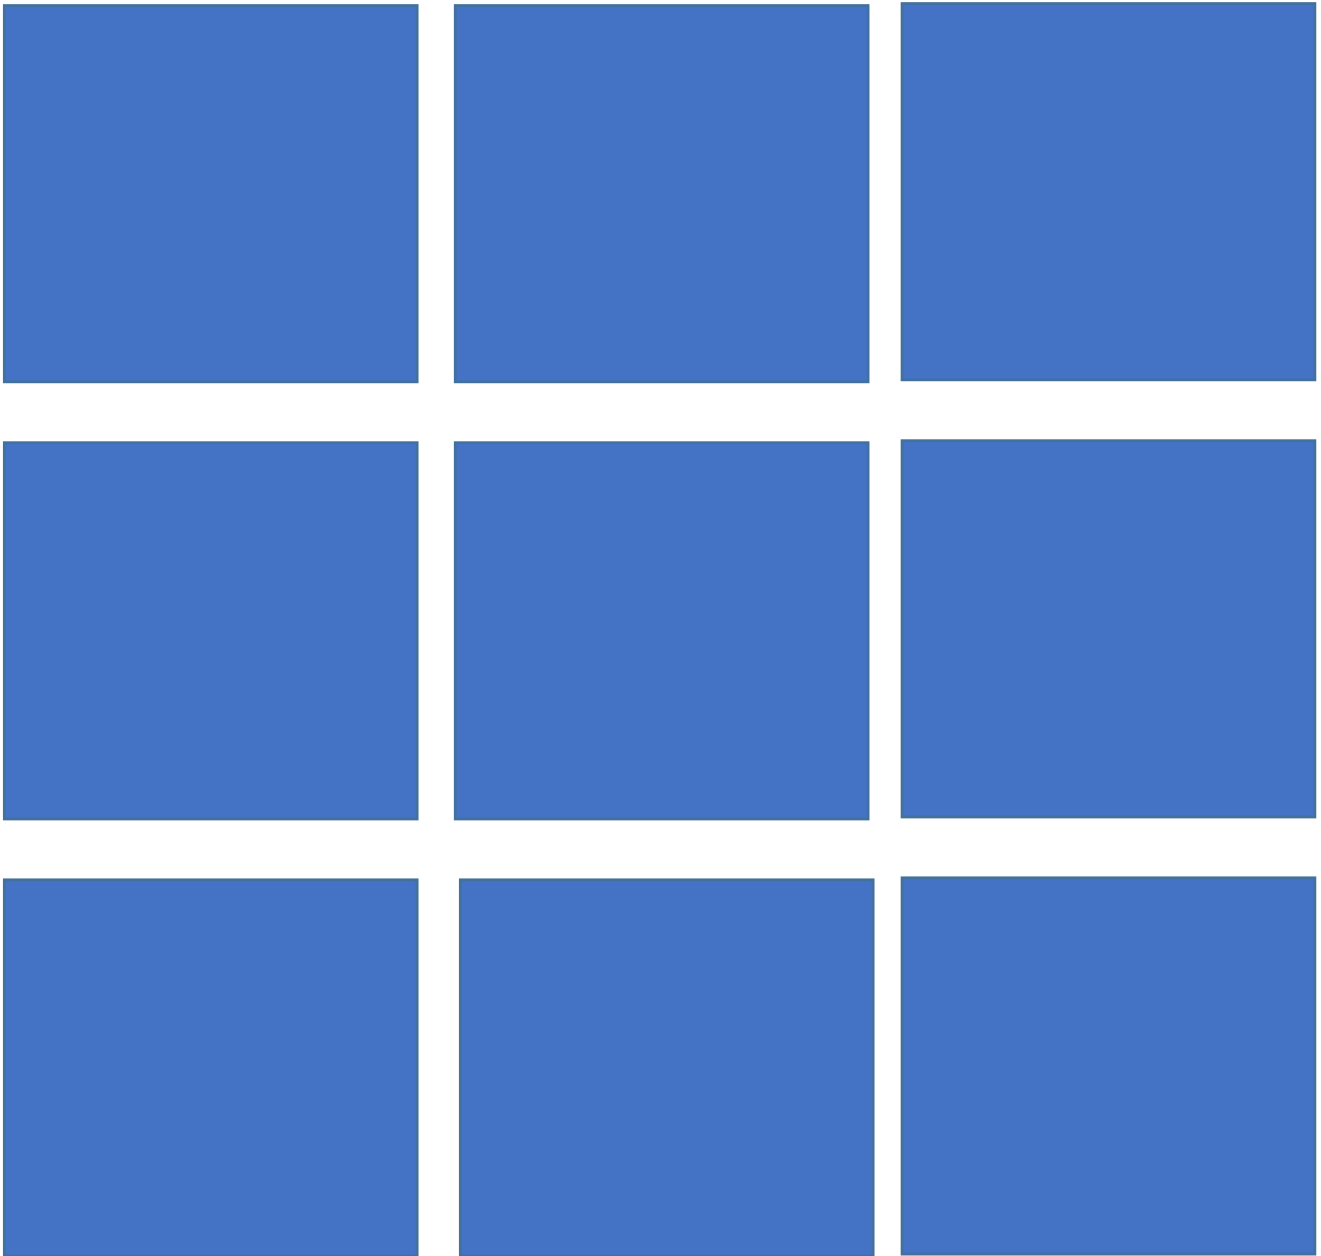

**Cuadrados pequeños rojos:**

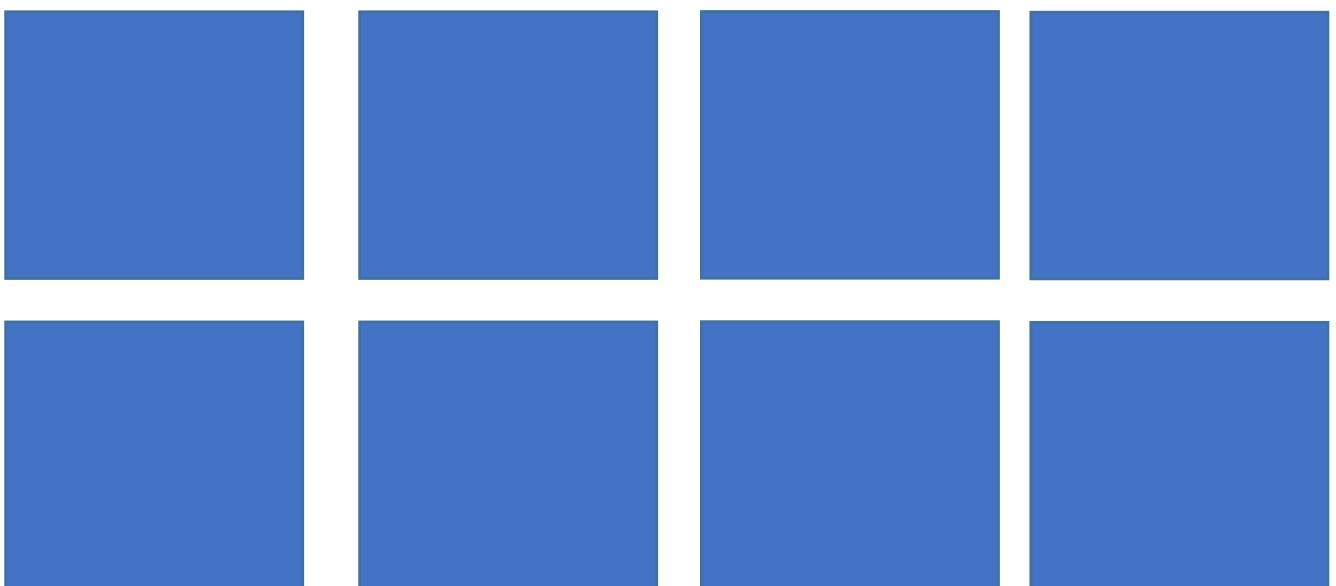

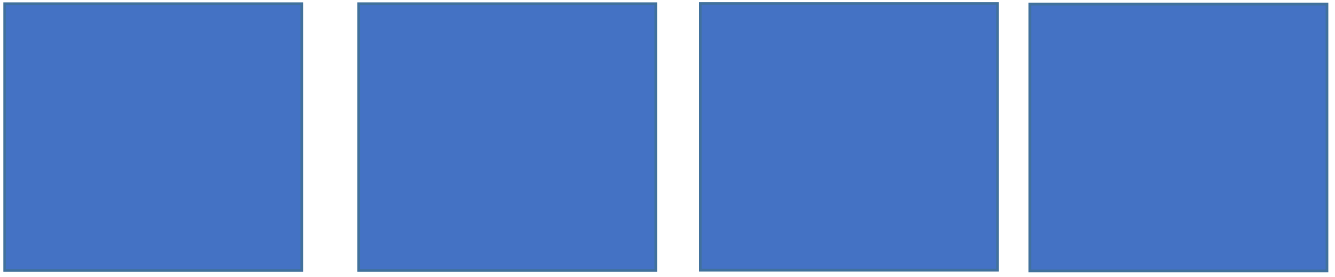

**Cuadrados grandes azules**

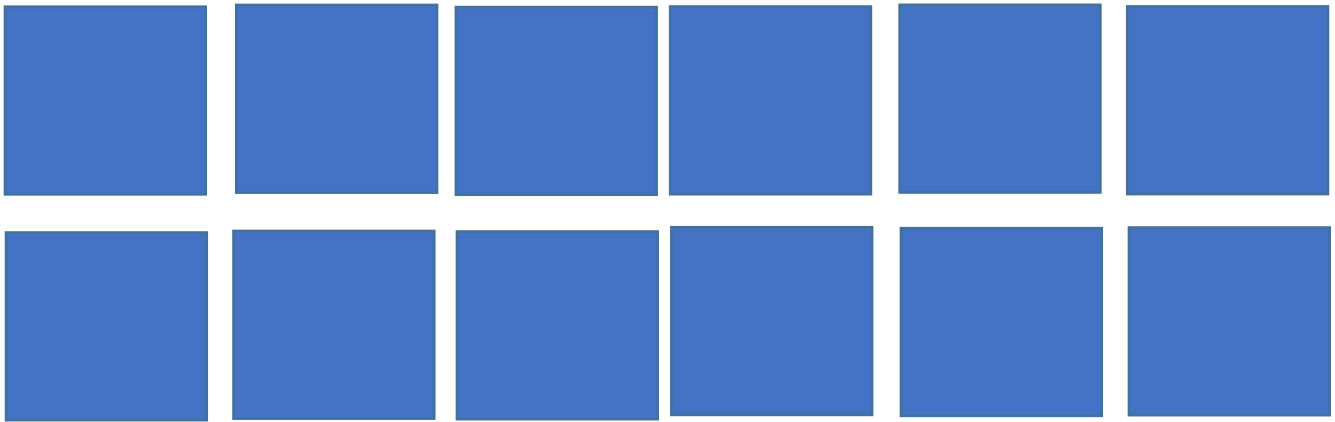

**Cuadrados medianos azules**

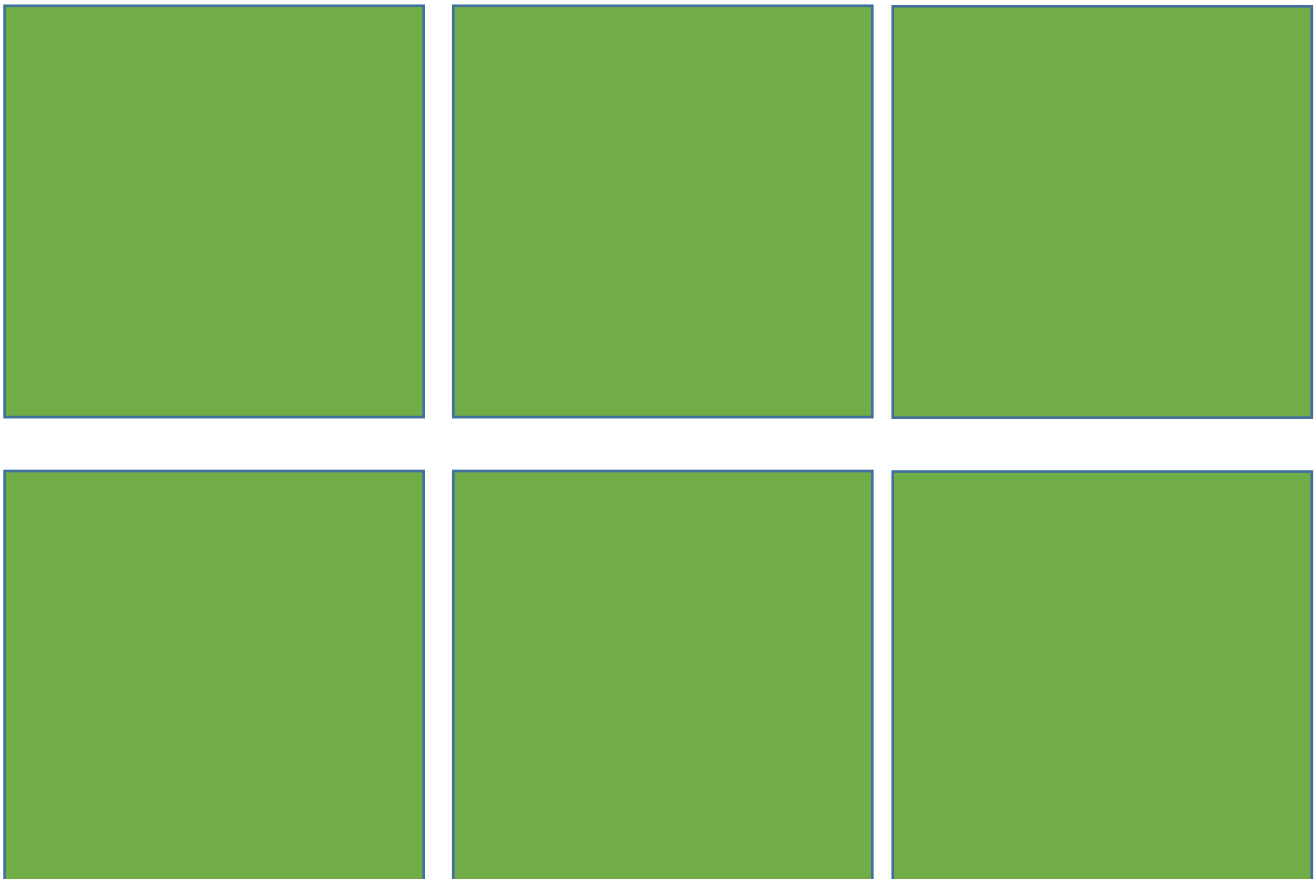

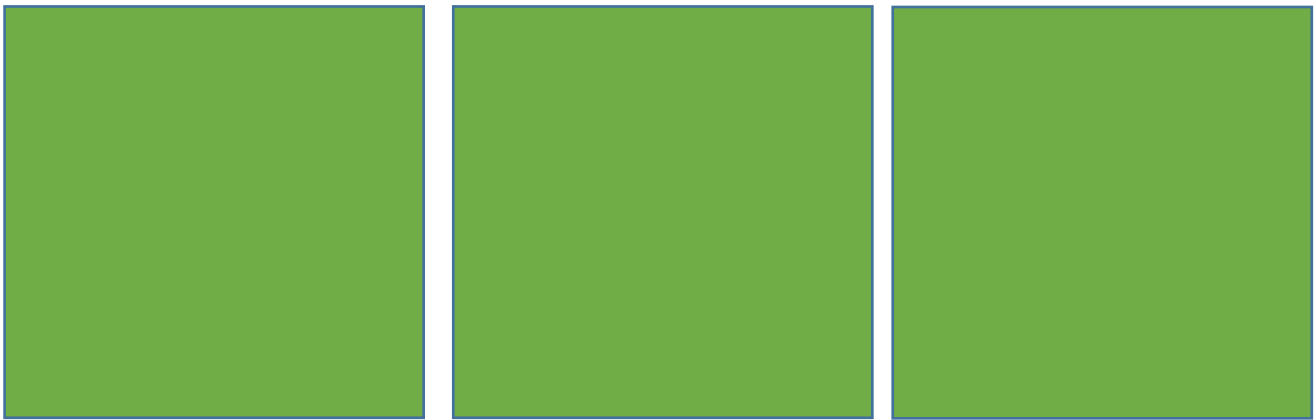

**Cuadrados pequeños azules:**

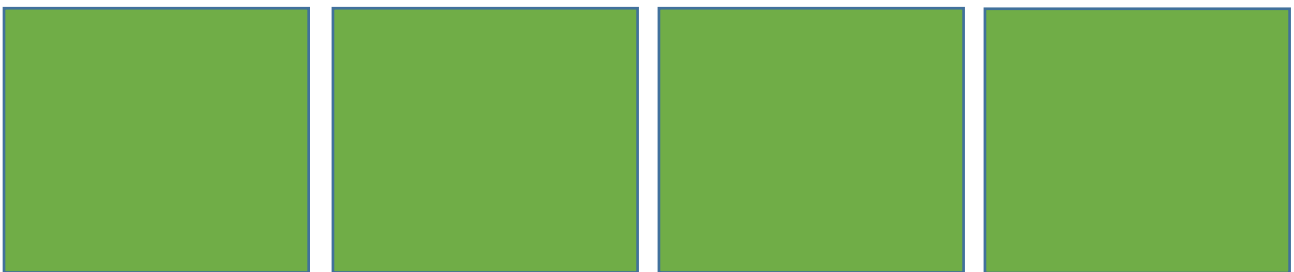

**Cuadrados grandes verdes**

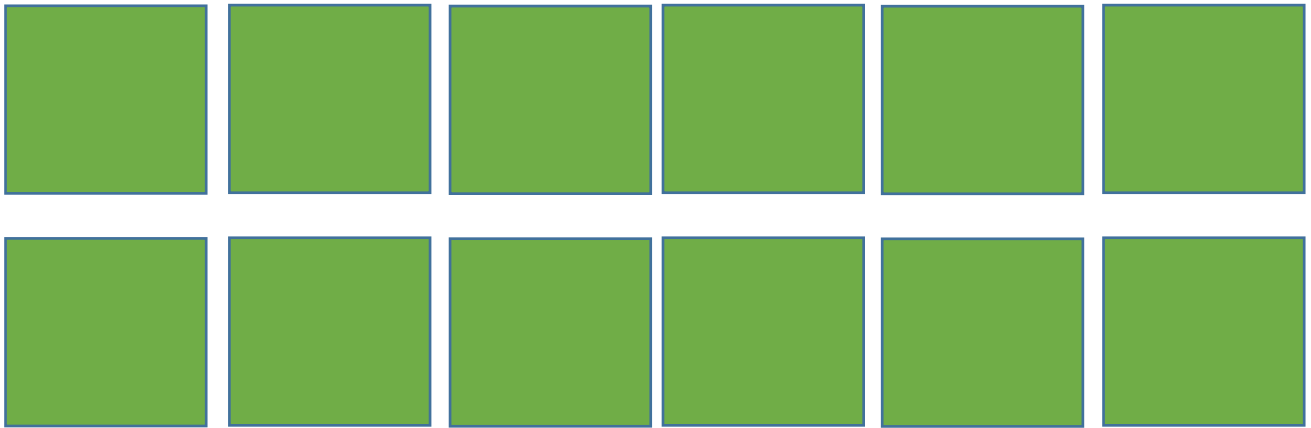

**Cuadrados medianos verdes**

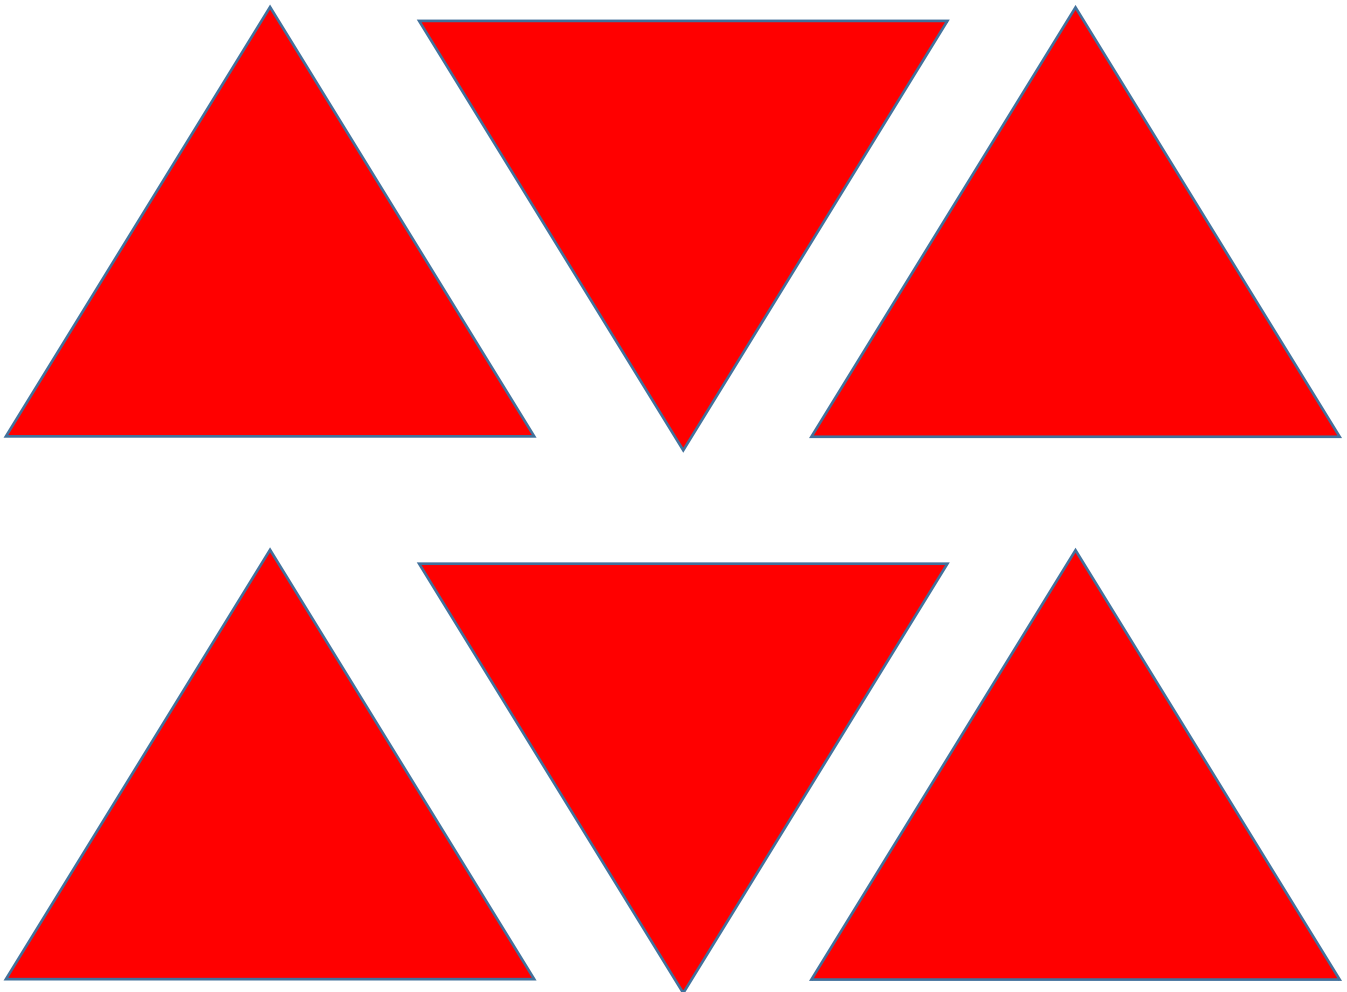

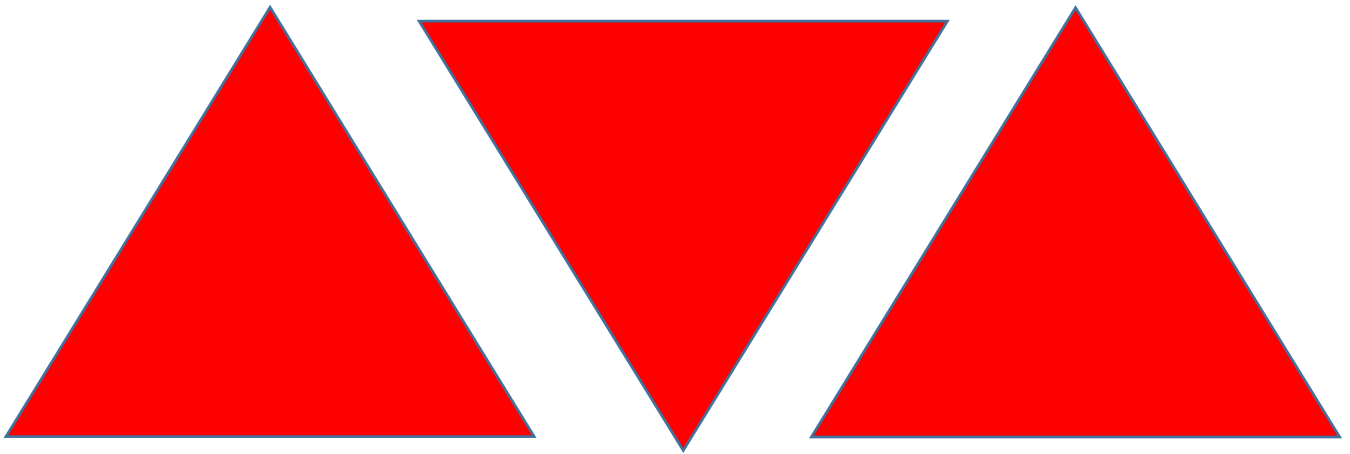

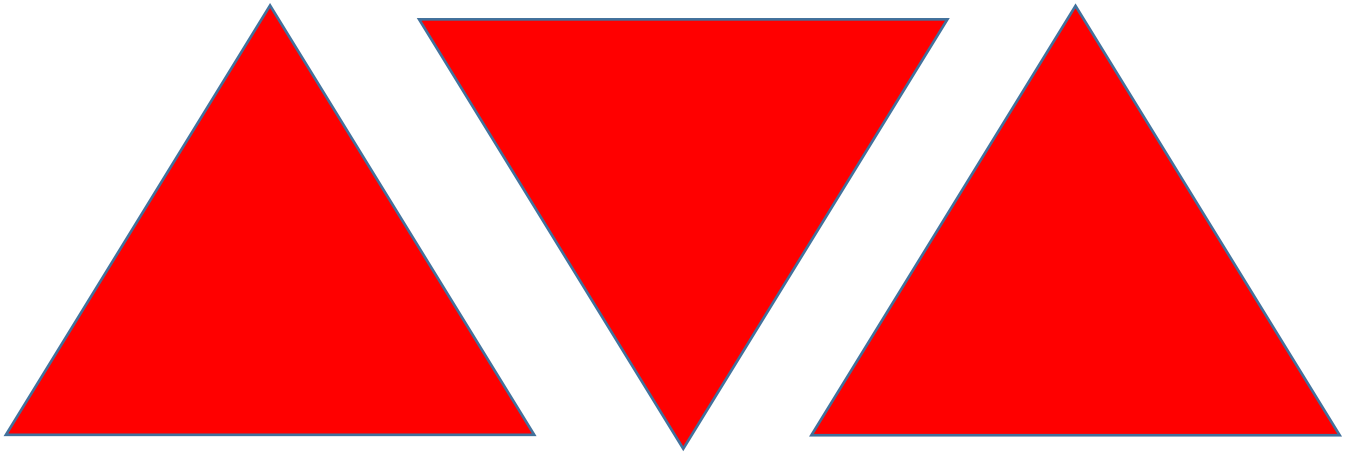

**Cuadrados pequeños verdes:**

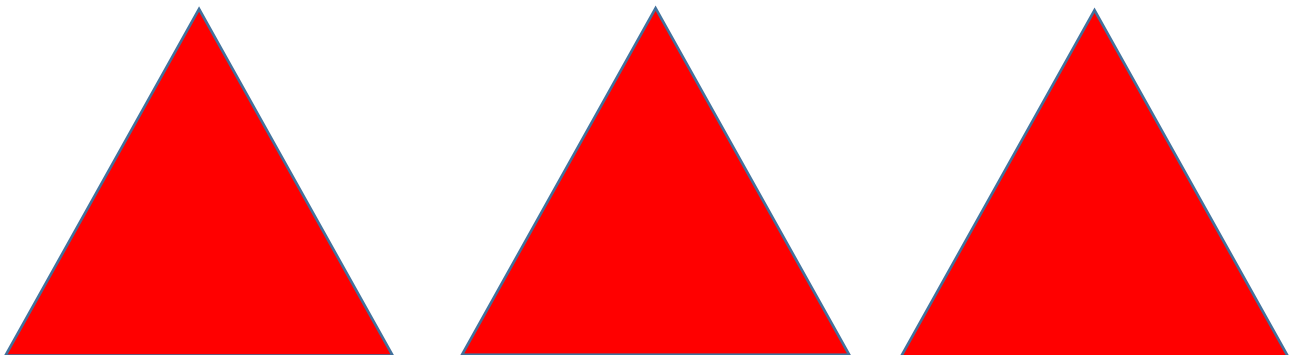

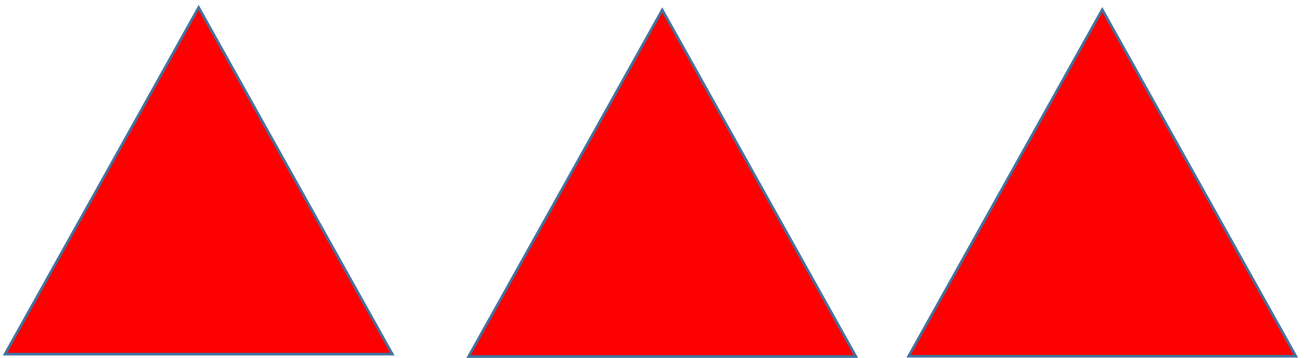

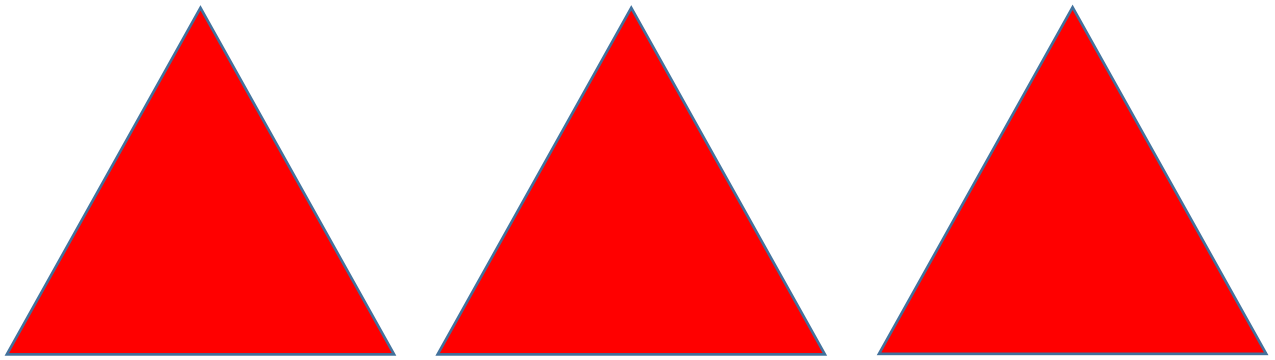

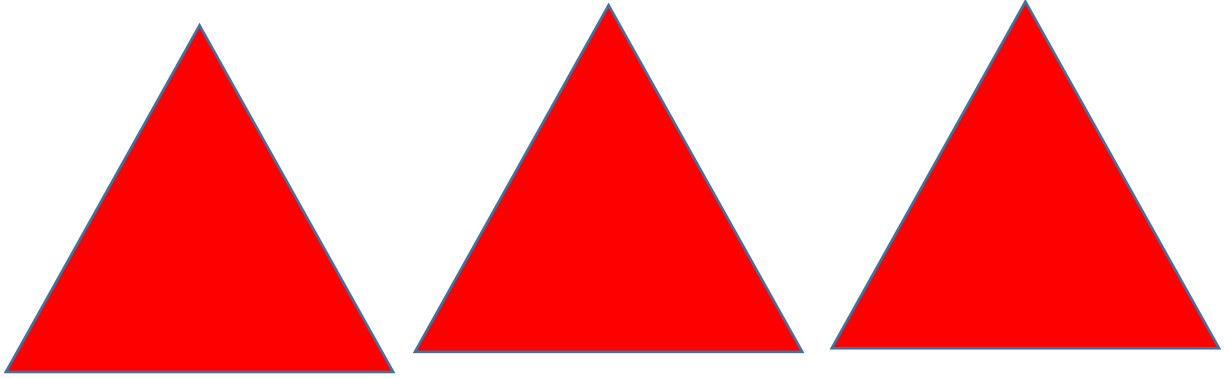

**Triángulos rojos grandes**

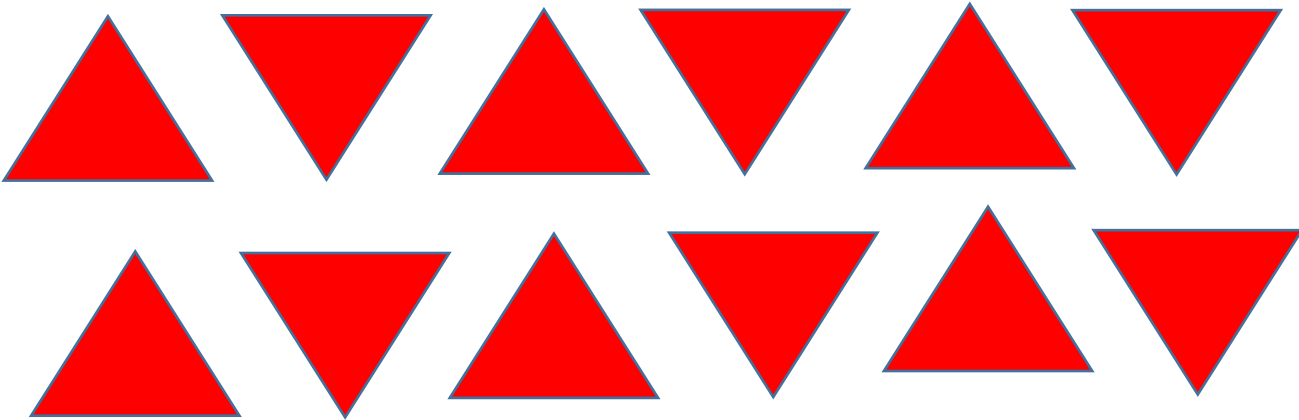

**Triángulos rojos medianos:**

**Triángulos rojos pequeños:**

**Triángulos azules grandes**

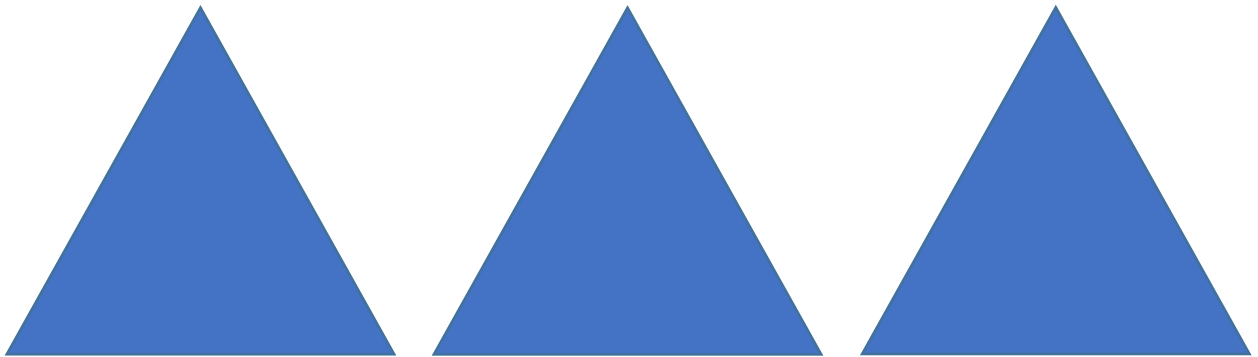

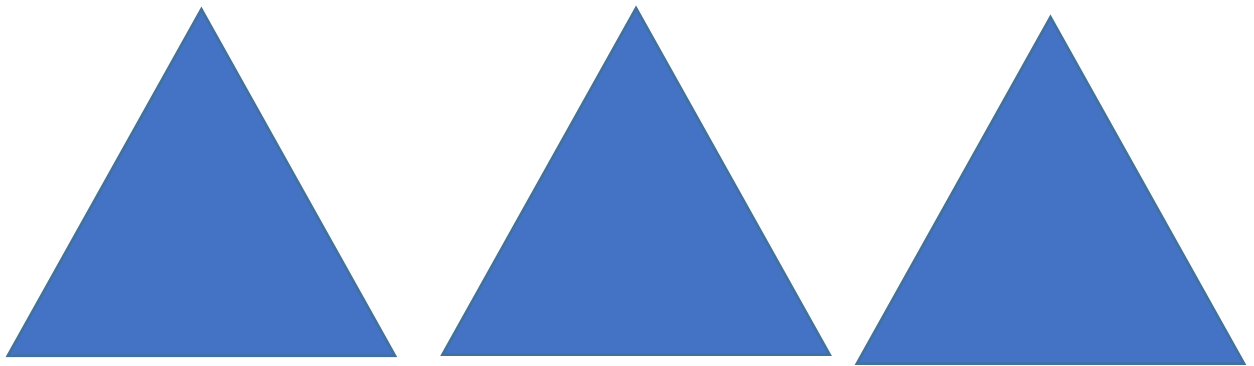

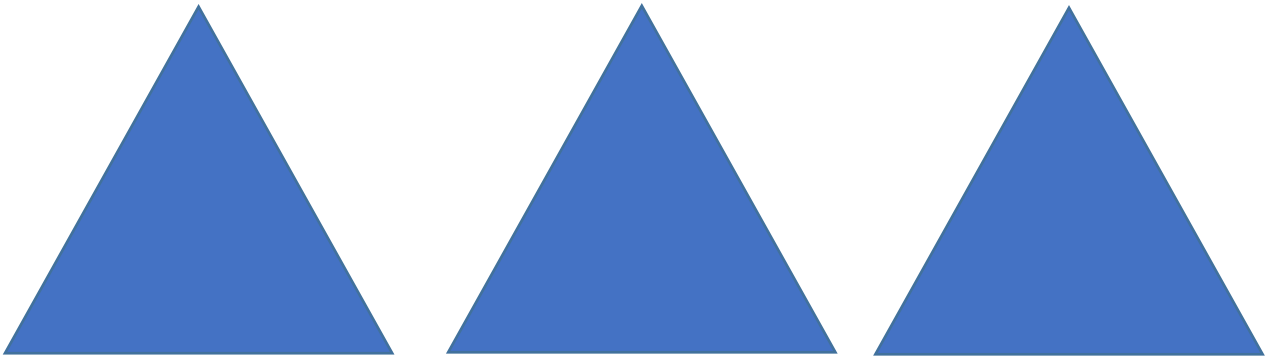

**Triángulos azules medianos:**

**Triángulos azules pequeños:**

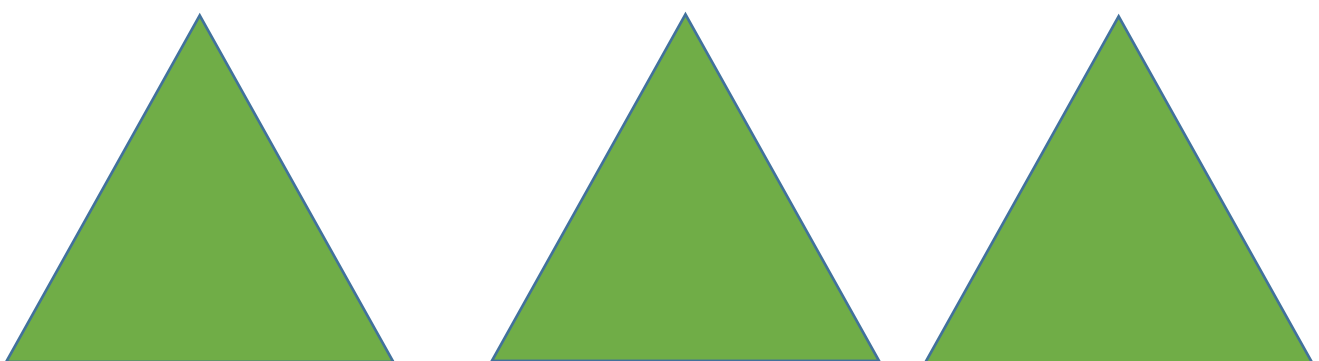

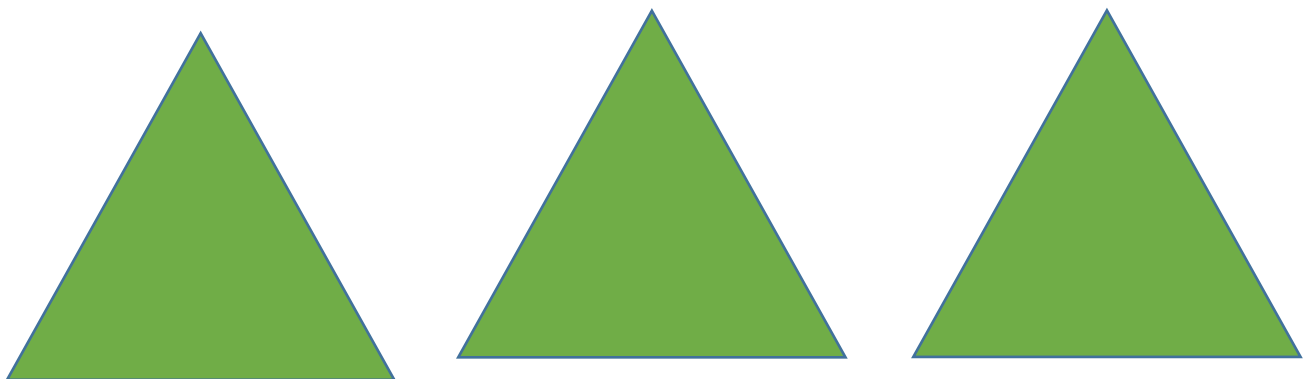

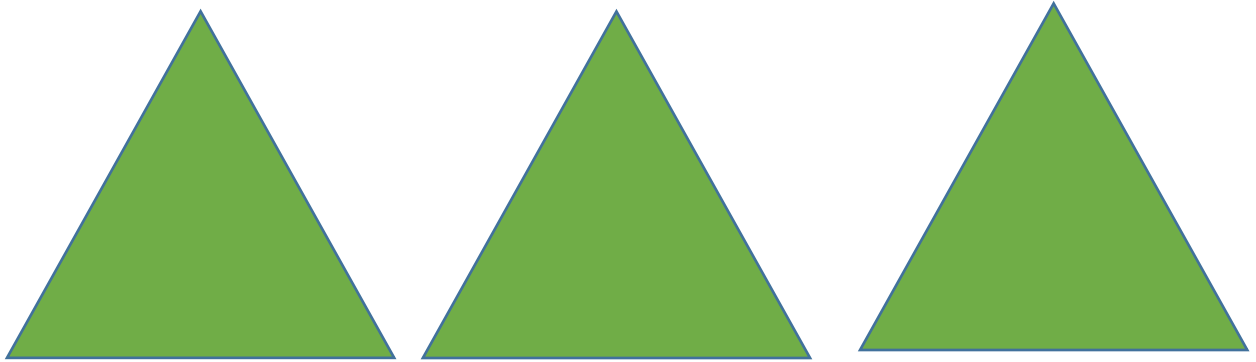

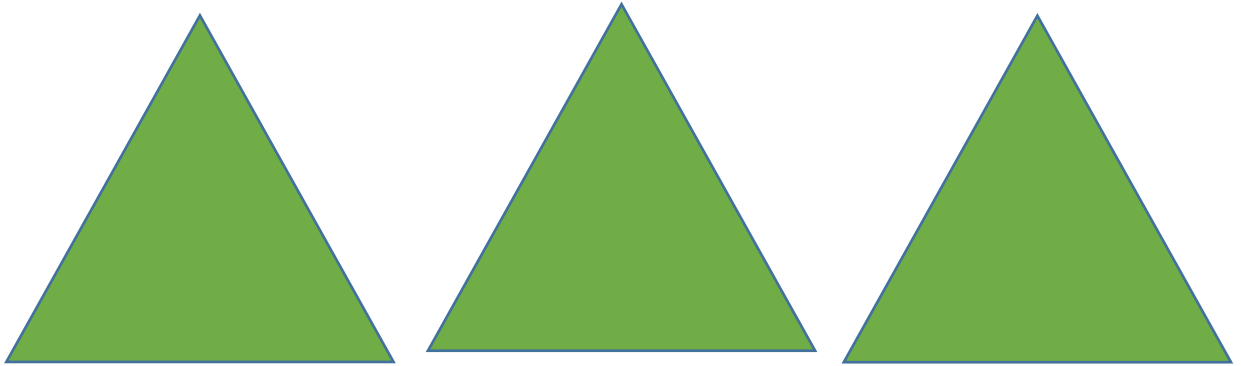

**Triángulos verdes grandes**

**Triángulos verdes medianos:**

**Triángulos verdes pequeños:**

**Grupo 1 de números:**

12	4	8
6	10	14

**Grupo 2 de números:**
